**T**his year marks our 20th Anniversary. On this occasion it is appropriate to give thanks to those who have helped us achieve this milestone. I will apologize in advance for not having the space to thank every person who deserves a mention below.

My father, who indulged me in countless trips to Teddy Roosevelt's Sagamore Hill Estate that had me dreaming of Africa after that first visit.

My YPO Group that was made up of owner/operators of businesses who encouraged me, a W-2 employee, to start my own business.

My son, who kept me up for most of his first year. During fleeting moments of quiet I wrote a business plan that has served us in good times and bad.

My wife, who did not understand why I needed a second job 20 years ago (*especially when we had two in diapers*) but has been nothing but supportive along the way.

Craig Boddington, who was the first one to give a fledgling business some ink and has kept it up for two decades.

Mike Schoby, Jeff Johnson, and Jason Vincent at Field Ethos whose support pre-dates the formation of their exciting new organization.

Jack Carr, Navy SEAL and New York Times best-selling author, who talks about Courteney® boots in his novels (*buy or watch "The Terminal List"*) and has introduced them to a whole new audience.

Our African-based suppliers who have bent over backwards to help us succeed in the USA. Very early on, Gale Rice of the Courteney® Boot Company took a flier on a start-up based on a promise, made by a stranger over the phone. We are honored to represent her company and Arno Bernard Knives.

Last but not least, our customers. You make all of this possible. We know that your service expectations and quality standards are very high and we strive to exceed them during every interaction. When we fall short, you are cordial and forgiving. We tell everyone that "*We have the best customers in the world*" and we mean it. **The things you have done for us are simply amazing!** Your orders, referrals to friends, and willingness to come back for more are appreciated more than you know. Thank you for enabling this incredible journey.

We look forward to seeing you in Dallas and Nashville. Please stop by so we can thank you in person for your support over the past two decades!

Good Hunting!

*Jim + Elisabeth*

CHRIS DORSEY - AUG 3, 2021

### Into Africa - The Return of Safari... Now What To Wear?

Courteney Selous Boots JOHN MACGILLIVRAY, DORSEY PICTURES

#### Courteney Selous Boots...the quintessential African footwear.

The Selous has been worn by rangers, safari guides, researchers and others who wanted to make sure they could out-run others in their party for decades. Buffalo leather also absorbs and releases moisture, which makes it ideal for both summer's heat and winter's cold...and if you get too close to one and wet yourself. Buffalo hide also does not stretch yet becomes more supple with time. Want to know the hide is authentically Cape buffalo? Just look for the scars in the leather, most likely a lion's autograph.

Buy them at [African Sporting Creations](#), a company that has assembled a collection of some of the most interesting, useful, and ingenious products for the modern traveler and sportsman.

## PETERSEN'S HUNTING

### Best New Knives for 2019

Joseph von Benedikt - February 05, 2019

Even if it weren't the alphabetical first, I'd have put this knife at the top and given it a "best of the best" endorsement. Handmade in South Africa by a group of brothers, these Arno Bernard Dagga Boy drop point knives feature spectacular Bohler N690 surgical stainless steel hafted in Cape buffalo horn and warthog ivory. Perfectly balanced, they come incredibly sharp—as in scalpel sharp. Marketed exclusively through [African Sporting Creations](#), each costs \$399—and is worth more. This is a knife with which you can skin a thousand whitetails, plus all the moose, brown bear, kudu and buffalo you please, and then hand it down to your kids in perfect condition.

### Essentials For An African Safari

G&A Staff; Photo by Michael Anschuetz - September 10, 2018

Remembering the safari of a lifetime should go beyond taking pictures and hunting game. In preparation, G&A believes that you should take gear that will enable a safe and successful adventure while embracing Africa's romance. May we suggest starting at [African Sporting Creations](#) for unique, hand-made products that embody the ruggedness of Africa? Among the many items the company offers, there are four items we feel no hunter shouldn't leave home without: shooting sticks, a good sling, an Arno Bernard knife and Courteney boots.

Courteney boots come in various styles and are made from Nile crocodile, Cape buffalo, hippo, or ostrich leather. The most popular boot is the Selous, named after legendary explorer, conservationist, hunter and soldier Frederick Courteney Selous. These boots are constructed entirely from buffalo and impala, and hand stitched in Zimbabwe. The sole is made of a rubber "tyre" tread, and is highly regarded for producing little-to-no noise in the bush.

One item [African Sporting Creations](#) is best known for are their shooting sticks. Made in-house of hickory, carbon fiber, or select, limited-edition African woods, the sticks feature leather-wrapped tops hand-sewn from buffalo or zebra leather. The leather improves grip while protecting the rifle's forend when it's time to shoot. Anodized aluminum connectors assemble quickly and the sticks can be stored for transport in a provided canvas carry case.

No safari rifle is complete without a sling and no pair of binoculars should be either. The company offers a canvas and leather bino sling from Els & Co. The strap assembly is comfortable with three traditional brass studs that push into eyelets for adjusting to improve weight distribution.

Knives are a collector's favorite and [African Sporting Creations](#) is the U.S. master distributor for Arno Bernard knives featuring handles made of buffalo horn and warthog tusk. They also make great gifts to leave behind with your professional hunter or trackers who share your experience.

Most of the products you'll find at [africansc.com](#) are available nowhere else, just like your memories.

# AFRICAN SHOOTING STICKS

Many years ago we only offered one product: **African Shooting Sticks**. We set out to make the best sticks available, and the rest of our business developed from that first initial product.

Our typical customer purchases up to a half-dozen less expensive aluminum shooting sticks before they finally invest in a set of ours. While our sticks “cost more,” they will save you money over the long run, and your grandchildren will be proud to use them one day.

The connector is the strongest component on our Shooting Sticks because it is milled from a solid block of aircraft aluminum and has three points of contact for unmatched strength. The adjustment mechanism on competitors’ Shooting Sticks are usually the weakest component because they rely on plastic or thin stamped metal pieces. This explains why they typically offer a one-year limited warranty versus our unconditional lifetime warranty.

In addition to being strong, our sticks are also stealthy. The most unnatural sound in the wild is a metallic one. Our competitors use a hollow aluminum tube with pointed metal bottoms that can make noise and scare off game. Our solid wood shafts and pencil sharpened wood or polymer bottoms are the quietest on the market, helping you get in close.

No one ever regretted owning the very best, and our Shooting Sticks have earned a cult-like following among PH’s and serious hunters all over the world. Read for yourself why people who hunt for a living (*or live to hunt*) consider them to be beyond compare!

**UNCONDITIONAL  
LIFETIME  
WARRANTY**

Absolutely the finest sticks available today are made by African Sporting Creations. Custom built for your height, they are available in various exotic hardwoods; are fitted with buffalo, zebra, or other exotic leather; and can be engraved with your name. While you might think they'd be heavy, they're actually lighter than competing metal and plastic versions, and they are far more durable. I've broken a few sets of modern sticks and have seen many more broken, but even African PHs, who work their shooting sticks incredibly hard year-round, don't wear out or break those made by African Sporting Creations.

Joseph Von Benedikt  
August 2016

Shooting sticks have become standard tools for hunting in many places around the globe. A solid pair of sticks provides you with a steady platform from which to deliver an accurate first shot, regardless of the terrain.

African Sporting Creations offers a line of handmade sticks designed to last forever and backed up with an unconditional lifetime warranty.

## GRAY'S BEST

Jim has experimented with various woods, improving the design with each generation until now he is close enough to perfect to rate a **GRAY'S BEST**.

**Terry Wieland**  
Expeditions & Guides

*I am a firm believer in "African style shooting sticks" and have been using sticks from African Sporting Creations for several seasons. This year African Sporting Creations' screw-in tripod has become a permanent part of my gear. I took them to Pakistan in January where I used them "short" to take a Sind Ibex and "long" to take a Himalayan Ibex at long range in deep snow. Right now I am in Argentina - and you can bet my sticks are here with me!*

- Craig Boddington

# SUPERCOMPACTS & CARBON FIBER STICKS

**SUPERCOMPACTS** are very versatile shooting sticks. Use the top section alone to shoot from the prone position. Connect the top section to the bottom ones, which feature quiet wood points, to shoot from the kneeling position or to make a 48" walking staff for navigating rough terrain. Use all three sections to shoot from the standing position.

To make sure you can plant them in the ground, pointed tips are always facing down whether you use one, two, or all three sections. The shorter wood sections make these sticks even more rigid than our other models. They are also ideal for those who like to travel with their firearms incognito in a shorter take-down case (Blaser®, double rifles) and need a more compact set of shooting sticks. Instead of one set of anodized take-down connectors, these have two.

**Featherweights**-Weigh approximately 2.5 lbs. and use light-weight but very rigid exotic African hardwood for the top and bottom sections. Hickory stained, a medium brown color is used for the middle sections. – \$449

**Standards**-Larges weigh approximately 3.0 lbs. and are hickory stained medium brown. – \$399

**Medium** size fits hunters 62"-67," and the longest section measures 26"  
**Large** size fits hunters 68"-73," and the longest section measures 26"  
**XL** fits hunters above 74," and the longest section measures 28.25"  
(will fit in a Blaser® case) *Engrave your name on the connector for \$49.*  
*Order by 12/15 for holiday delivery.*

## CARBON FIBER SHOOTING STICKS

ENGRAVING AVAILABLE

**PLATINUM CARBON FIBER SHOOTING STICKS** are for anyone who wants the lightest and most rigid sticks available. Carbon fiber is four times stronger than steel yet weighs less than aluminum.

*Weigh approximately 2.5 lbs – \$449 Large (68-73") and XL (above 74"). Optional engraving – \$49 and order by 12/15 for holiday delivery.*

## FLY'S EYE® TRIPOD

This new model is engineered to deliver unmatched support and pinpoint accuracy by offering twice as many points of contact. It offers best-in-class performance due to the intuitive design, rugged construction, ability to change the point of impact without repositioning, compactness when taken apart, light weight and quietness — all backed by the only unconditional lifetime warranty in the business. This top-of-the-line tripod is handcrafted in our Ohio workshop and is the only product of its type made in the USA.

**No expense was spared to build the best product possible.**

- The pivot head utilizes an investment-grade aluminum casting sleeved with an indestructible polymer that fully encases the stainless steel pivot ball. The rear support arm opens up to create a 20" span between the two points of contact. This length is ideal for double rifles, single shots, and bolt actions. The cable that connects the two sections is just one of several failsafes incorporated into this model.
- The optional one-piece suede leather bridge top and rear support arm allows you to shift your fore end to move the point of impact approximately 50' at 100 yards to follow moving game without repositioning the sticks.
- If you do not have the extra few seconds to deploy the rear support arm or are taking a close shot and do not need it, you can use this set as a traditional tripod as the rear support arm sits below the front bridge tops.
- The rear support arm "V" is designed to go behind the pistol grip of the rifle. Do not put it directly behind the trigger guard as it is not designed to be used from that position.
- When in use, the spread between the bottom legs on the ground is approximately 4' to allow the rear support arm "V" to spread out far enough to securely hold the rifle stock behind the pistol grip.
- Do not crouch behind the sticks as that will put your eye too close to the scope. The legs are made long enough so you can stand relatively upright to avoid "scope eye."
- They hold even the largest NE rifles in place during recoil for quick follow-up shots.
- Much quieter and lighter at 3.5 lbs. than similar aluminum models.

## ADVANTAGES VERSUS OTHER MODELS

- Easy to adjust — no protruding buttons under tension that all have to be depressed or sleeve you have to carry in the field.
- Heavy-duty construction for extreme rigidity.
- Keeping downward pressure on the optional one-piece suede leather bridge top and rear support arm “V” allows you to adjust point of impact without repositioning.
- Lighter weight – approximately 3.5 pounds versus up to more than 5 lbs. for competitive models.
- Quiet, with no hollow aluminum tubes to conduct sound.
- More compact when taken apart as longest section is only 38” in length.
- Nothing permanently affixed to your rifle that makes it difficult to sling or carry.
- Covered by the only unconditional lifetime warranty in the industry with local spare parts.

Please visit our website for additional product details, setup instructions and how to change your point of impact without repositioning.

## SIZES: MEDIUM-XXL

- **Medium** fits 5'5" - 5'8" in height and is 68" long when assembled. The longest section is 38" when taken apart for transportation. Call us if you need a shorter size.
- **Large** fits 5'9" - 6" in height and is 70" long when assembled and the longest section is 38" when taken apart for transportation.
- **XL** fits 6'1" - 6'3" in height and is 72" long when assembled. The longest section is 38" when taken apart for transportation.
- **XXL** fits 6'4"+ in height and is 74" long when assembled. The longest section is 38" when taken apart for transportation.

## PRICING

- *Base model with oak shafts, non-anodized silver pivot head, traditional circular leather tops and no case. – \$499*
- *Fully loaded model with more rigid hickory shafts, black anodized pivot head, one-piece suede leather bridge top and heavy-duty canvas carrying case. – \$549 (our best value! Save \$50)*
- *Optional engraving – \$49 and order by 12/15 for holiday delivery.*

# AFRICAN SHOOTING STICKS

## PLATINUM EXOTIC WOOD STICKS

These are the quietest and toughest sticks on the market and have earned the coveted Gray's Best award in 2009. The rigid exotic wood shafts come with hand-sewn Cape buffalo tops that will not snag on brush. The anodized take-down connectors are milled out of solid aluminum and have three points of contact for unmatched strength. Use the same sticks the best known PH's in the business rely on season after season and that travel everywhere with Craig Boddington. Heavy-duty canvas carrying case included. Available in the three exotic woods pictured below.

## SHOOTING STICKS: FREQUENTLY ASKED QUESTIONS

### How quickly do they ship?

We ship stock Shooting Stick orders the next business day. If you “Build your Own” and/or want the connector engraved with a name or initials, it will add 5 business days to the delivery time.

### What size should I order?

We provide size information based on your height. If you are between sizes or plan to take steep uphill shots, (need them longer to avoid scope eye) we recommend the next larger size. You can always work with a set that is a little too long. If they are too short, in addition to the risk of “scope eye”, the “V” at the top that supports the fore end will be too narrow. Since it will not be wider than your fore end, the far leg has a tendency to kick out during recoil.

### What are the most rigid models you offer?

All of the models offered are very rigid. Keep in mind that you do not have to press your rifle down into them to improve accuracy. They are simply a rest for your rifle and another point of contact. If you exert a lot of downward pressure, your muscles will fatigue and your groups will actually get larger.

### How long are they when taken apart?

All of our models unscrew and can fit in a full-length rifle case. Larges range from 36-38” and XL range from 38-40” long. If you are traveling with a take-down case or want to put them in a duffel bag, then our large or XL SuperCompacts will fit in either with an ID length of at least 28.25.”

### How much do they weigh?

Domestic wood, large-sized sticks weigh approximately 2.5 pounds. Exotic wood sticks weigh a half-pound more due to their greater density, but this is still less than most premium aluminum tripods. SuperCompact Hickory domestics weigh approximately 3 pounds (Featherweights weigh ½ pound less) due to the extra set of connectors which increase their versatility and allow them to unscrew to a shorter length.

### Do you repair them?

Yes, but we have had to do this less than a dozen times in 15 years. If you need a repair, simply send them back with a note explaining what you need done. If you need parts you have lost or worn out, simply order them online.

## SILVER AFRICAN SHOOTING STICKS

These are just as functional as the Platinum exotic wood ones, but without all the bells and whistles. Shafts are Hickory, a tough, rigid wood used for axe handles, and these are combined with anodized take-down connectors. They include one set of hand-sewn leather tops and a canvas carrying case. Now available with optional exotic leather tops and Courteney Cape buffalo carrying case.

*Standards: for 73” and shorter hunters - \$249*

*XL: for hunters 74”+ - \$275*

# SAFARI CLOTHING

## SAFARI HAT

This hand-made hat is very similar to the one Gregory Peck wore in the Snows of Kilimanjaro. Made in the USA and offered in a warm pecan color accented by a striking 2" wide band of striped Burchell zebra. The 8X rabbit fur blend provides a fine finish, and the arch patterned ventilation holes help to keep your head cool. The 3" brim is wide enough to protect you from the sun, and the leather sweatband will keep perspiration out of your eyes so you can make sure you remain the hunter and not the hunted. *S, M, L, XL & 2XL* - \$399

## LONG SLEEVE SAFARI SHIRT

Double stitched for durability with generous sizing and long tails that stay tucked. Made in Africa from 5½ oz. prewashed and pigment-dyed cotton. Mesh lined vent back circulates air to keep you cool. One chest pocket with button down flap and another with a zipper closure secures permits and valuable travel papers. *M, L, XL & 2XL* - \$79

## SAFARI JACKET

Made from Tropicool® 100% cotton in the traditional Khaki color. Plenty of pockets and perfect for cool mornings or evenings around the campfire. *L, XL & 2XL* - \$129

# EXOTIC CULLING BELTS, CASES & SLINGS

## CAPE BUFFALO CULLING BELTS

This belt features Cape buffalo hide bullet loops specially designed to facilitate the removal of big bore rounds. The cartridge rims sit above the top of the belt so you can get a good grip on them, and the two bullet loop sections are divided in the middle to separate softs from solids. These belts are designed to be worn over a standard belt, and fit smaller due to the thickness of the leather. If in doubt or between sizes, we recommend that you choose the next larger size. Large African fits .416 Rigby-.500 NE-holds 8 rounds. Belted Magnum fits 7MM Remington Magnum-.458 Winchester Magnum and holds 10 rounds. Available in M, L & XL - **\$269**. ## MINI FIELD BAR

This smaller version of the full size field bar is lighter, easier to carry, and it stores about half as much. It measures approximately 14" tall, 9" wide and 9" deep. It has room to store one bottle of your favorite liquor, four cans of soda or tonic, lemons, a knife, and a corkscrew. It includes two Bohemian stemless crystal glasses, two leather coasters, a Stanley® wide-mouth double-walled ice bucket and a solid oak cutting board that nests in a bottom compartment. – \$999

## TIFFIN SNACK BAR

Snacks and sundowners go hand in hand, so this beautifully crafted piece is the perfect companion product for any of the items on this page. The durable stainless steel tins nest together and open up into three separate sections. Cumulatively, they are about the size of a quart can of juice. – \$369

## SOMERSET COVERED & OPEN CARTRIDGE POUCHES

Hand-dyed, shaped and stitched from top grain vegetable tanned leather. Designed to slide on the leather (to right) or canvas Hogsback Hunting belts. African Large holds 6 double rifle rounds in a 2x2 arrangement and Large Magnum calibers hold 10 rounds. *Covered* - \$169 | *Open* - \$149

## HOGSBACK 2" LEATHER HUNTING BELT

Lined with bovine suede for extra durability and a luxurious finish. The entire leather belt is hand stitched using thick gold waxed cotton thread for a beautiful contrast. Sizing is easy: measure your existing belt from the hole you use to the end of buckle and order the closest even size. 36" - 46" - \$229

## GRAAF-REINET LEATHER RIFLE SLINGS

These all-leather slings are available in two widths: 2.5" or 1.75". They feature hand-stitched vegetable tanned leather and are padded for extra comfort. Both are adjustable and feature solid brass hardware. 2.5" - \$199 | 1.75" - \$179

## NIU-BETHESDA SLING

Featuring an easily adjustable strap so it can be used "short" at 35" or "long" at 43" to fit any rifle. This extra-wide 2" cotton canvas sling allows you to comfortably carry a big bore rifle all day. Choose the thinner 1.5" version for lighter rifles. 2" - \$189 | 1.5" - \$169

**SPECTACLE CASE I** - This simple eyeglass case is crafted from thick leather and is lined with suede. It is big enough to protect almost any pair of specs and the two sections are held together with friction. The inherent strength of the oblong shape will make sure your glasses arrive intact. - \$129

**DULLSTROM FLY ROD TUBE** Designed by fly fishing enthusiasts and cut from full grain leather, this painstakingly hand-stitched piece has an internal dimension of 29.5" and is fitted with solid brass accessories. The adjustable strap enables you to carry your case in your hand, over your shoulder or even cross bodied. Lined with wool to ensure your fly-rod does not collect a scratch. - \$499

Arno Bernard  
KNIVES

Arno Bernard Knives are crafted in Africa and place a little bit of adventure in your hand every time you hold one. The founder of the company, who has been making custom knives for decades, taught the four sons the proper way to craft a knife, and each one of them has mastered a key part of the process that produces their exceptional creations.

## FREQUENTLY ASKED QUESTIONS

### What type of steel is used?

Stainless Steel knives are made with Bohler N690, a high quality stainless steel which is then heat treated and tempered, that hardens the blade to a 59-60 on the Rockwell hardness scale. This level of hardness holds an edge very well, but is not so hard that it is brittle or difficult to sharpen. Folding knives use RWL 34 steel.

### How quickly do you ship?

We stock over 300 knives to ensure almost all stock knife orders ship the next business day.

### How are the knives sharpened?

Each one is hollow ground (done on a wheel) by hand, by Franco Bernard.

### Can I get the lucky recipient's name or initials engraved on the knife?

Yes, you can get any stainless steel knife with a mammoth handle (Inner tusk or molar) engraved for only \$49. Please note this adds about a week to the delivery time, and once a knife is personalized we are unable to accept returns.

### What if I lose my sheath?

We inventory almost all sheaths, and you can simply order a replacement online, or over the phone. Go online to see what model you have as these are ordered by the knife's model number.

## ARNO'S HAND PICKS

Cutting tons of handle materials each year has given Arno an unfailing intuition as to which ones, out of the thousands they process annually, will be absolutely stunning. I encourage you to go to our website to look through this incredible collection. If you see something you like, do not hesitate; "unicorns" are incredibly rare and you may never see another one.

### CUSTOM-MADE WARTHOG & OLIVEWOOD KNIFE DISPLAYS

These custom-made displays are available in versions that will hold three or six knives. Olivewood is a stunning exotic wood with an abundance of character provided by knots, cross-graining and burls. The three unit display is 13" tall, 6-8" wide and approximately 7/16" thick. The six unit display has a similar width and thickness but is approximately 26" tall. Knives are securely held in place by the shelf they sit on and by the grooves cut in the polished, real ivory warthog tusks. Three knife displays are perfect for smaller collections, and the six unit one is great for steak knives on a sideboard or larger collections.

## RINKHALS SLIP JOINT FOLDER

**A** MAMMOTH MOLAR

**B** DESERT IRONWOOD

**C** STABILIZED WARTHOG TUSK

**D** NATURAL WARTHOG TUSK

**E** KUDU BONE

This updated version of the classic slip joint measures 6.5" overall with a 2.8" blade, full-sized 3.7" frame, and 2.8" handle inlay. It features a beautiful design with a versatile RWL34 stainless steel blade, a nail nick for easy opening, and a thumb notch for comfort. Just like your old Buck®, Western® or Case®, the blade features a mirror finish. The hand-sewn, leather slip protects it in your pocket, and the lanyard makes it easy to access. This lightweight knife sheds ounces by using Titanium for the frame, pocket clip, collar and screws, and **only weighs 2.3 ounces!**

The slip joint mechanism of this knife features an innovative "safety" when it is halfway open which causes the blade to be under very little tension, so it is easy to move your fingers out of the way before tension builds again and assists you in closing (*or opening*) the knife. Most slip joint knives have continuous tension throughout their entire range, which in some cases causes the blade to close before you can get your fingers out of the way. Since this knife does not have a mechanism that locks it open, always cut with the blade moving away from you to prevent injury.

There are five natural choices for handle inlays; (A) *Mammoth Molar* – \$649 | (B) *Desert Ironwood* – \$529  
(C) *Stabilized Warthog Tusk* – \$499 | (D) *Natural Warthog Tusk* – \$499 | (E) *Kudu Bone* – \$479

# ARNO BERNARD® KNIVES • IMAMBA™ FLIPPER

If there was a “Best Knife” classification like there is for British Best Guns, the new Arno Bernard imamba® folding knife would fall into that category. In today’s world of mass production, 99% of folding knives are taken off machines and assembled from machine-made parts. In direct contrast to that, the Arno Bernard imamba™ flipper has the three brothers’ fingerprints all over it.

As with all great products, the process starts with the finest materials. The blade is made from RWL 34 stainless steel, the frame and pocket clip are titanium, and the pocket clip has no external screws for a clean visual. Each blade features a satin gloss finish and is sharpened by hand to produce the shiny razor-sharp hollow ground edge that contrasts the body of the blade. A rounded opening tab on the top of the blade enables one-handed opening, and a deep nail notch allows 2-handed opening. The locking mechanism is lapped by hand until the two surfaces engage at 100% for unmatched strength. It is extremely durable and made to last a lifetime. Premium friction-free ceramic ball bearings make the action as smooth as glass and contribute to the durability. The pocket clip is comfortable to hold in the hand which is a feature which many people on knife forums put on their “wish list.” Knife measures 7.9” overall with a 4.1” frame, 3.4” deep bellied blade, and weighs only 4.3 ounces.

## CASED SET OF SIX STEAK KNIVES

No expense was spared in the creation of these one-of-a-kind sets. The knives are 8.1" overall with sleek, contoured 4.05" handles that showcase the stunning beauty of polished Mammoth Molar, hand-buffed ivory Warthog tusk or Kudu horn. Five stainless steel pins on each side keep the handles securely fastened to the full length tang. The N690 Bohler stainless steel blade is 4.05" long, and Franco Bernard puts a razor sharp hollow ground edge on every one.

The custom crafted African mahogany presentation case measures approximately 11.3" wide x 4" deep x 2.3" tall and features recessed brass hinges, a magnetic closure and contrasting exotic wood highlights on all four corners. A center divider keeps the knives securely separated, with three knives to a side. **Hand wash in warm water and hand dry, do not put in a dishwasher.**

## FREQUENTLY ASKED QUESTIONS

### ■ How quickly do they ship?

Almost all stock Courteney® orders ship the next business day. We stock more than 20 styles and over 400 pairs in Ohio. Even if we do not have the exact model you want, we can send you something very similar, if you need them quickly.

### ■ Do you accept custom orders?

Yes, please see our Build Your Own Exotic Boot section for details. If you want a boot built to your particular specifications, you can expect delivery in approximately 150 days.

### ■ What size should I order?

If you are a current Courteney® owner, order the UK size stamped in the top right and left hand corner of the logo patch located above the heel. If this is your first pair, simply provide your US size and we will send you the equivalent UK size. All the styles we offer are available in half sizes.

### ■ How are the men's styles cut?

The boots run wide so if you have a wide foot (EE) they will fit you right out of the box. If you have a regular width foot (D width), then order one of the several styles we offer in that width.

### ■ Do they have a lot of arch support?

They are cut relatively flat. If you have a pronounced arch, we recommend you order a set of our SOLE insoles which quickly mold to your feet. The medium red insoles typically take up about a half size so we suggest ordering your boots a half-size larger. If you are "between" sizes, the thin gray insoles usually take up any extra space.

### ■ What socks do you recommend?

We recommend the thick Rohner Trekking socks from Switzerland. They are heavily cushioned and the Merino wool wicks moisture away from your feet.

### ■ Are Courteney® Boots waterproof?

All of the Courteney boots are treated to be water repellent but they are not waterproof. The application of the Courteney conditioner will keep them water repellent. Due to the hot temperatures in Africa, these boots are designed to breathe so that moisture does not accumulate and cause blisters. To be truly waterproof, you need some type of membrane (for example, GORE-TEX) but boots with that type of material are typically too hot for Africa as they do not allow moisture to evaporate.

### ■ Do you offer ladies' styles?

Yes, we offer three different ladies' styles but you can custom order anything you want with a 150 day delivery time.

### ■ What is your return policy?

Try any boot we stock in your home and if you need a different size or want to return them, just send them back unworn and put a note in the box telling us how you would like to proceed. No return authorization is required.

*Cape Buffalo with Toffee Croc Inlay (shown) - \$179, All Cape Buffalo - \$129*

## XL WARTHOG TUSK SHOE HORN

These are hand-buffed to bring out the character of the ivory. For a size reference, a large orange would fit inside the curve of the tusk. The expertly turned African Bubinga shaft is seamlessly fitted to the hourglass shape of the tusk. Measuring approximately 23" from top to bottom, these shoe horns hang easily from a hand braided Italian leather loop.

**Limited supply! \$399**

## COURTENEY® OSTRICH & CAPE BUFFALO BELTS

Two thick and supple game skin strips are sewn together to ensure these belts will last for decades. The contrasting leather logo patch is displayed on the buckle side of this 1.5" casual belt. *Tan Ostrich 34"-46" - \$199 or Brown, Black Cape Buffalo 34"-46" - \$149*

# WOMEN'S JEWELRY

## GEMSBOK HORN AND PLATED SILVER CHOKER AND EARRINGS SET

These stunning pieces are crafted using a process that makes the Gembok horn pliable enough to be turned into thick, durable strands similar in size and color to elephant hair. The inky darkness of the horn contrasts beautifully with the plated silver decorative accents. The 14" choker necklace clasps easily and securely using a shepherd's hook closure. There are two styles of earrings you can choose from: wider hoops with three stands of horn inlaid between silver borders; and narrower hoops twisting one strand of horn around one strand of silver.

*Choker with Hoop or Twisted Earrings - \$499/set*

## WOMEN'S PLATED SILVER GEMSBOK CUFF BRACELETS

These cuff bracelets are crafted using the same process described above. The leather covered steel memory band adds durability and can be adjusted to provide a custom fit. We offer four models: a thick cuff; one that has two silver strands on the top and bottom; one that features two plated silver elephant knots; and the thin twisted cuff. All coordinate with the pieces above – combine them for an even more stunning look!

*(A) Thick Cuff - \$299 | (B) Elegance - \$249 | (C) Elephant Knot - \$249 | (D) Twisted Cuff - \$249*

## WARTHOG IVORY HEARTS NECKLACE AND EARRING SET

The inspiration for these stunning pieces are the much larger soapstone hearts crafted by Shona artists in Zimbabwe. Each is carved by hand so no two are alike. The ivory pendants average 1" long and 1" wide and are mounted on a sterling silver "V" post with an 18" sterling silver chain. The ivory earrings are hung from a sterling silver shepherd's hook and are available in S, M (*shown to left*) and L sizes.

See website for more photos and details.

*Ivory Pendant & Earring Set - \$299*

## WOMEN'S PLATED SILVER WILDLIFE SETS AND BRACELETS

These are cast in bronze using the lost wax process and are then plated with 99.9% pure sterling silver. Choose from the matching set of elephant jewelry (choker, bracelet and earrings on left) or any one of the bangles (right) featuring one of the animals from the Big Five.

*Plated Silver Elephant Set - \$299*

*Individual Big Five animal bracelets - \$79 each*

## MEN'S GOLD GEMSBOK HORN BRACELETS

These bracelets are made the same way as the other Gemsbok Horn jewelry showcased on the previous page but the elephant knots are solid gold. Not gold plated, not hollow gold wire, but solid gold! Elephant knot bracelets are said to bring the wearer good fortune, and who is not in need of a bit of good luck this year? *Mens* – \$1,999

## MEN'S ELEPHANT HAIR & WARTHOG TUSK BRACELET
