Daily Adventures Delivered

Africa has been exerting a gravitational pull on adventurers for hundreds of years. The attraction of that spectacular continent is best summed up by the old adage that says, *"You can never go there just once"*. Like many of you, as soon as we return from safari, we are ready to go back. In the pages that follow you will discover dozens of hand-crafted, safari-inspired products to help you enjoy that magic a little closer to home.

We are particularly excited about our partnership with Arno Bernard knives of South Africa. We first met Arno Jr. over a decade ago when we used to buy knives from his father. Arno and his three brothers are now running the company, and you will not meet a nicer or more talented group of individuals anywhere. We reconnected with them last year, and we have been working together ever since to develop their knife business and expand their product offering. In addition to the 32 knives featured on pages 12-17, you will also find two new categories from them in the catalog: hand-sewn leather goods and full size 1911 grips with exotic inlays. 2018 will be a pivotal year for Arno Bernard Knives, and they are hard at work preparing for the two largest product launches in the company's history. Stay tuned for those exciting developments.

Great products require great marketing, and, in the coming months we will be updating our website with better navigation, more high-resolution images and an easier check-out process. We invite you to connect with us on the various social media platforms and to share with us how our products made your adventure even more enjoyable.

Thanks for your support, and we look forward to helping you experience more enjoyment in all that you do.

Good hunting,

Jim & Elisabeth

OUR FIRST PRODUCT

Many years ago we only offered one product: *African Shooting Sticks*. We set out to make the best ones available and the rest of the business developed from that first, initial product.

Our typical customer purchases up to a half-dozen, less expensive, aluminum shooting sticks before they finally “invest” in a set of ours. While our sticks “cost more” they will save you money over the long run and your grandchildren will be proud to own them one day.

The biggest difference between our Shooting Sticks and everyone else's is our bullet-proof connector. It is milled from a solid block of aircraft aluminum and has three points of contact for unmatched strength. Competitive connectors usually rely on plastic or thin, stamped metal pieces to function which explains why they typically offer a one-year limited warranty versus our unconditional, lifetime warranty.

In addition to being strong, they are also stealthy. The most unnatural sound in the wild is a metallic one and a hollow aluminum tube with pointed metal bottoms can make noise that scares off game. Our solid wood shafts and pencil sharpened wood bottoms are the quietest on the market and help you get in close.

No one ever regretting owning the very best and our Shooting Sticks have earned a cult-like following among PH's and serious hunters all over the world. Read for yourself why people who hunt for a living (or live to hunt) consider them without equal!

GRAY'S BEST

Jim has experimented with various woods, improving the design with each generation until now he is close enough to perfect to rate a **GRAY'S BEST**.

*Terry Wieland
Expeditions & Guides*

I am a firm believer in "African style shooting sticks" and have been using sticks from African Sporting Creations for several seasons. This year African Sporting Creations' screw-in tripod has become a permanent part of my gear. I took them to Pakistan in January where I used them "short" to take a Sind Ibex and "long" to take a Himalayan Ibex at long range in deep snow. Right now I am in Argentina--and you can bet my sticks are here with me!

- Craig Boddington

Absolutely the finest sticks available today are made by African Sporting Creations. Custom built for your height, they are available in various exotic hardwoods; are fitted with buffalo, zebra, or other exotic leather; and can be engraved with your name. While you might think they'd be heavy, they're actually lighter than competing metal and plastic versions, and they are far more durable. I've broken a few sets of modern sticks and have seen many more broken, but even African PHs, who work their shooting sticks incredibly hard year-round, don't wear out or break those made by African Sporting Creations.

Shooting sticks have become standard tools for hunting in many places around the globe. A solid pair of sticks provides you with a steady platform from which to deliver an accurate first shot, regardless of the terrain. African Sporting Creations offers a line of handmade sticks designed to last forever and backed up with an unconditional lifetime warranty.

SUPERCOMPACTS & CARBON FIBER STICKS

SUPER COMPACTS are for those who like to travel with their firearms incognito in a shorter take-down case (Blaser®, double rifles) and need a more compact set of shooting sticks. Instead of one set of anodized take-down connectors, these have two. The shorter wood sections make these sticks even more rigid than our other models. To make sure you can plant them in the ground, pointed tips are always facing down whether you use one, two, or all three sections. These are also our most versatile shooting sticks. Use the top section alone to shoot from the prone position. Connect the top section to the bottom ones which feature quiet wood points to shoot from the kneeling position or to make a 48" walking staff for navigating rough terrain. Use all three sections to shoot from the standing position.

Featherweights-Weigh approximately 2.5 lbs. and use light-weight but very rigid exotic African hardwood for the top and bottom sections. Hickory stained a medium brown color is used for the middle sections. **\$399**

Standards-Larges weigh approximately 3.0 lbs. and use hickory stained medium brown for all sections. **\$349**

Large size fits hunters 69"-75", and the longest section measures 26". XL fits hunters above 76", and the longest section measures 28" (will fit in a Blaser® case). *Engrave your name on the connector for \$49. Order by 12/19 for holiday delivery.*

CARBON FIBER SHOOTING STICKS

PLATINUM CARBON FIBER SHOOTING STICKS are for anyone who wants the lightest and most rigid sticks available. Carbon fiber is four times stronger than steel yet weighs less than aluminum. Standards weigh approximately 2.5 lbs, *Standards* -**\$429**, *Large* (69-75") and *XL* (above 76"). *Engrave name for \$49-Order by 12/19 for holiday delivery.*

SHOOTING STICKS: FREQUENTLY ASKED QUESTIONS

- » **How quickly do they ship?** We ship stock Shooting Stick orders the next business day. If you want them personalized, add 7 business days to get the connector engraved.
- » **What size should I order?** We provide size information based on your height. If you are between sizes or plan to take steep uphill shots (need them longer to avoid scope eye) we recommend the next larger size as you can always work with a set that is a little too long. If they are too short, in addition to the risk of "scope eye" the "V" at the top that supports the fore end will be too close together and since it will not be wider than your fore end, the far leg has a tendency to kick out during recoil.
- » **What are the most rigid models you offer?** All of the models offered are very rigid and keep in mind that you do not have to press your rifle down into them to improve accuracy. They are simply a rest for your rifle and another point of contact. If you exert a lot of downward pressure, your muscles will fatigue and your groups will actually get larger.
- » **How long are they when taken apart?** All of our models unscrew and can fit in a full-length rifle case. Larges range from 36-38" and XL range from 38-40" long. If you are traveling with a take-down case or want to put them in a duffel bag, then our large or XL SuperCompacts will fit in either with an ID length of at least 28"
- » **How much do they weigh?** Domestic wood, large-sized sticks weigh approximately 2.5 pounds. Exotic wood sticks weigh a half-pound more due to their greater density, but this is still less than most premium Aluminum tripods. Super Compacts Hickory domestics weigh approximately 3 pounds (Featherweights weigh ½ pound less) due to the extra set of connectors which increase their versatility and allow them to unscrew to a shorter length.
- » **Do you repair them?** Yes, but we have only done this less than a dozen times in 15 years. If you need a repair, simply send them back with a note explaining what you need done. If you need parts you have lost or worn out, simply order them online.

SILVER AFRICAN SHOOTING STICKS-These are just as functional as the Platinum exotic wood ones, but without all the bells and whistles. Shafts are Hickory, a tough, rigid wood used for axe handles, and these are combined with anodized take-down connectors. Includes one set of machine-sewn leather tops and carrying case. This is the same version Dirk de Bod, the SCI and DSC PH of the Year, has been using for the past 10 years. *Large: for 69'-75" hunters-\$229, XL: for hunters 76"+ \$249*

AFRICAN SHOOTING STICKS

PLATINUM EXOTIC WOOD STICKS-These are the quietest, lightest, and toughest sticks on the market and are the same ones that earned the coveted Gray's Best award in 2009. The rigid, exotic wood shafts come with two pairs of hand-sewn, circular tops that will not snag on brush, one in leather and the other in zebra or buffalo. The anodized take-down connectors are milled out of solid aluminum and have three points of contact for unmatched strength. Use the same sticks the best known PHs in the business rely on season after season and that travel everywhere with Craig Boddington. Heavy-duty canvas carrying case included. Available in the three exotic woods pictured. *Specify Medium (under 68"), Large (69-75") and XL (above 76")*

Arno Bernard Knives are crafted in Africa and place a little bit of adventure in your hand every time you hold one. Their father, who has been making custom knives for decades, taught the four sons the proper way to craft a knife and each one of them has mastered a key part of the process that produces their exceptional creations.

HANDLE MATERIALS: *Responsibly Sourced, Expertly Crafted.*

MAMMOTH MOLAR

The mammoth is an extinct mammal that belonged to the elephant family. The fossilized molars are stabilized and polished to create a beautiful and unique handle.

GIRAFFE SHIN BONE

The giraffe is the tallest living terrestrial animal and is admired as an icon of wild Africa. Its shinbone is among the strongest and produces a handle that is both durable and beautiful.

WARTHOG TUSK

The warthog is a wild member of the pig family and its ivory tusk resembles elephant ivory in density, texture, and quality. Warthog tusk is capable of being polished to a high gloss.

CUSTOM SHEATHS

Each knife includes a custom, hand-crafted sheath. Leather options depend on model: Ostrich leg is standard on both ASC exclusive Dagga Boy Mammoth knives and Cow hide (bottom) is standard.

ENGRAVING AVAILABLE

Personalize any mammoth molar knife for only \$39.

ARNO BERNARD KNIVES: *FREQUENTLY ASKED QUESTIONS*

- » **What type of steel is used?** Bohler N690, a high quality stainless steel which is then heat treated and tempered, which hardens the blade to a 59-60 on the Rockwell hardness scale. This level of hardness holds an edge very well but is not so hard that it is brittle or difficult to sharpen.
- » **How quickly do you ship?** We stock over 500 knives across 32 styles to ensure almost all stock knife orders ship the next business day.
- » **How are the knives sharpened?** Each one is hollow ground (done on a wheel) by hand, by Franco Bernard.
- » **I am thinking about giving one of them as a gift, can I get the lucky recipient's name or initials engraved on the knife?** Yes, you can get any Mammoth molar knife engraved for only \$39. Please note this adds about a week to the delivery time and once a knife is personalized we are unable to accept returns.
- » **What about the sheaths?** A thick, hand-sewn cowhide sheath is included with every knife. Premium real Ostrich leg leather sheaths are included with your purchase of either of the two African Sporting Creations exclusives (see left side of page 15) with mammoth molar handles.
- » **What if I lose my sheath?** We inventory almost all their leather sheaths and you can simply order a replacement online or just give us a call. Go online to see what model you have as these are ordered by model number.
- » **Do you accept custom orders?** Yes, if you want a knife built to your particular taste, we are happy to order those for you with a 120 day delivery time. Please note that we are unable to accept returns on knives built to your unique specifications.

ARNO BERNARD TITANIUM FOLDER

A few hundred of these lightweight knives were produced to validate the durability and tolerances of their first foray into this category. The 3.5" stainless steel S35V blade is mated to a 6ALV4 titanium frame that is adorned with linear blue anodized grooves that are both functional and decorative. This blue color scheme continues with the thumb stud and button lock which are adorned with Swarovski® blue crystals. The blade folds using a premium "button lock" system which is much easier

to use than depressing a liner lock. A rugged Titanium pocket clip makes sure it stays put for quick access or you can carry it in the extra-thick, hand-sewn cowhide sheath. Order yours today. Quantities are limited for this fully loaded titanium folder and we expect them to sell out quickly at this heavily discounted price. 7" O/A length - \$199

COURTENNEY® BOOTS : FREQUENTLY ASKED QUESTIONS

- » **How quickly do they ship?** Almost all stock Courteney® orders ship the next business day. We stock 19 styles and over 400 pairs in Ohio so even if we do not have the exact model you want, we can send you something very similar if you need them quickly.
- » **Do you accept custom orders?** Yes, please see our Courteney® Custom section for details. If you want a boot built to your particular specifications, you can expect delivery in approximately 120 days. Please note, we are unable to accept returns on boots built to your particular specifications.
- » **What size should I order?** If you are a current Courteney® owner, order the UK size stamped in the top right and left hand corner of the logo patch located above the heel. If this is your first pair, simply provide your US size and we will send you the equivalent UK size.
- » **How are the men's styles cut?** The boots run wide so if you have a regular-wide foot the standard sizes will typically work for you. If you have a narrow foot, then order one of the three narrow styles we offer for men.
- » **Do they have a lot of arch support?** They are cut relatively flat so if you have a pronounced arch we recommend you order a set of our SOLE insoles which quickly mold to your feet. The 3.2MM insoles typically take up a half size so if you are ordering insoles we suggest ordering your boots a half-size larger. If you are "between" sizes, the 1.6MM insoles usually take up any extra space.
- » **What socks do you recommend?** We recommend the Rohner Trekking socks from Switzerland. They are heavily cushioned and the Merino wool wicks moisture away from your feet.
- » **Do you offer ladies styles?** Yes, we offer three different ladies styles.
- » **What is your return policy?** Try any boot we stock in your home and if you need a different size or want to return them, just let us know how you want to proceed. No return authorization is required but please put a note in the box.

WHAT COURTENNEY BOOT CUSTOMERS SAY ABOUT THEIR BOOTS

- I own two pairs of Courteney boots, had them for years; very comfortable and wear forever. Not cheap, but they last a lifetime.
- They are great! I have 2 pairs - both are equally as comfortable and built to last.
- I bought a pair of the Selous style around 20 years ago. You cannot wear them out. They offer great ankle support, comfort and take on any environment.

EXOTIC COURTENEY® BOOTS

NILE CROC IN CHOCOLATE (left) AND TOFFEE (right) -The tough and beautiful belly skin of this apex predator is showcased on luxury goods from around the world and adorns everything from luggage to designer purses. Boots costing more than twice as much use less than half the crocodile hide of this model and usually take half a year or more to have custom-made. The casual cleat sole in natural rubber makes this model ideal for office use or a night on the town. *Men's US 8-12. \$999*

UNISEX JEWELRY & EXOTIC ACCESSORIES

STERLING SILVER GEMSBOK HORN BRACELETS are crafted using a proprietary process that makes the Gemsbok horn pliable enough to be turned into thick, durable strands similar in size and color to elephant hair. The inky darkness of the horn contrasts beautifully with the Sterling Silver hardware. Steel memory band can be opened up (grasp like a wishbone) to provide a custom fit for both women and men. *Choose from left to right, Elephant Knot, Twisted Bangle or Elegance-\$199 each.*

EXOTIC HIDE COASTERS-Our set of four, rounded corner, exotic hide drink coasters bring you right back to the Dark Continent regardless of where you enjoy your next sundowner. They are just under a 1/2" thick and each one features a heavy leather base sewn to a thick piece of exotic hide. *Zebra, Elephant or Cape Buffalo-\$129 Monogram top coaster for \$15. Order by 12/19 for holiday delivery.*

DRESSER CADDY-Extra thick 7" x 7" cowhide frame with an eye-catching exotic hide panel. Never misplace your keys or wallet again! *Elephant, Cape Buffalo, or Zebra-\$99 Monogram for \$15. Order by 12/19 for holiday delivery.*

3-PIECE SETS-A passport holder, checkbook holder and business card/front pocket wallet-all in one matching hand-sewn set. Features heavy-duty stitching and supple tanned hides. Each piece is stamped with our logo to avoid any issues with USF&G when returning from abroad. This is the perfect gift for the adventurous traveler. *3-piece set, Cape Buffalo, Elephant or Zebra-\$199 Monogram inside cover of passport holder for \$15. Order by 12/19 for holiday delivery.*

CROC BELTS & EXOTIC LEATHER ACCESSORIES

CROC BELTS-Made from the most durable and desirable portion of the hide, the ridged Hornback. Both styles feature detachable buckles and color coordinated hardware. Sizing is easy: Measure your existing belt from the hole you use to the end of the buckle and order the closest even size. The **RANGER BELT** (left) measures 1¼" wide with two eye-catching Hornback panels inlaid on both sides of the buckle sewn to thick leather ends. Sizes 32"-46". Our **CASUAL BELT** (right) measures 1 3/8" and is a perennial customer favorite. Sizes 32"-52" Both are available in Mahogany (reddish brown) or black-\$399

GATOR BI-FOLD & FRONT

POCKET WALLETS-Made from huge gators that offer greater durability than smaller farm raised hides because they are thicker with staggered scales, providing superior resistance to cracking.

The **BI-FOLD** (top) measures 4½" x 3½" and the hide is sewn right over the finest calf skin wallet available. \$299

FRONT POCKET (bottom) This 3" x 4" piece has cash and card slots. Ideal for those who like their essentials up front. \$199

CROCODILE HAT BANDS-Adjustable to perfectly fit any hat. \$99 with teeth, \$69 without teeth.

COURTENEY® CAPE BUFFALO BELTS-Two thick and supple Cape buffalo strips are sewn together to ensure this belt will last for decades. The contrasting leather logo patch is displayed on the buckle side of this 1.5" casual belt. Brown or Black. Sizing is easy: measure your existing belt from the hole you use to the end of the buckle and order the closest even size between 34"-44". \$119

CIGAR & SPIRIT ACCESSORIES

African Animal Cutters

SCRIMSHAWED CIGAR CUTTERS

The side panels on these are 10,000 year-old mammoth ivory, and each one includes an exotic hide case. They can be customized with initials and/or a favorite image, or choose one of our best sellers depicting a head shot of a leopard, elephant, lion or Cape buffalo. Call us with your custom requests. *Monogrammed with Image (top right)*-\$359 or *Single Panel/African animals*-\$329; \$30 additional for 'Fat Boy' version Order monogrammed and/or custom images by 12/1 for holiday delivery.

*Top: Original monogrammed with image
Bottom: Larger "Fat Boy"*

MAMMOTH BARK CIGAR CUTTER

features the most colorful and unique part of the tusk, the outer bark. Each one is as unique as a fingerprint because each piece absorbs the minerals from the soil they have been buried in for millions of years in a different way. May be primarily brown, green, or on rare occasions, blue. \$499

WARTHOG OPENER

A retired German silversmith handcrafts these XL openers with a meticulous attention to detail. \$119

WILD OLIVE COASTERS & STAND

Six coasters measure 4" across 1/2" thick. Centuries old drying cracks may cause a small portion of a coaster to be lost during cutting, adding to the character of this unique piece from Zimbabwe. \$199

WHISKEY TRAVEL BAR-Comes in a leather case with carrying strap. Contains three 6 oz. flasks with nesting glasses that allow you to enjoy a variety of spirits after the hunt. \$139 *Monogram metal medallion on top of the case w/up to 3 initials for \$15-order by 12/19 for holiday delivery.*

WILD OLIVE ASHTRAY-This centuries old, extremely dense wood from Zimbabwe feels almost like it is petrified. Measures 5" across with an outside dimension of approximately 8". \$59 *See web site for cigar cutter and cigar barrel featured in the photo above.

SAFARI ROOM DECOR & DOVE STOOL

The “SPANISH CHAIR” is considered one of the finest pieces designed during the “Danish Modern” era. Borge Mogenson was the creator of this beautiful piece in 1958 and the broad armrests, which can hold a phone or a cocktail, are one of its distinguishing features. The angled legs support the low slung seat for unmatched comfort and the functional straps can be tightened as the seat breaks-in over time. Our Africanized version features an exotic African mahogany frame and thick, tan colored cotton canvas or leather seat and back for a striking contrast. This chair comes with assembly instructions and can be put together in about 15 minutes with long metal joining screws and bolts. Once put together, it is meant to be left standing as it will quickly become your favorite seat in the house. 26” H, 32” W, 19” D with seat height of 13.5” (low). Available in Leather (left) **\$1,199** or Canvas (right). **\$999**

DOVE STOOL Sit in comfort in a dove field or anywhere else with this luxury tripod stool. With leather seat and oak stained legs, this stool will appeal to the discerning outdoor enthusiast. Comes complete with it's own leather crocda, making carrying over long periods of time a breeze. Seat height is 24” and will support up to 275 pounds. **\$129**

RHODESIAN TEAK STAND features one of the most striking exotic wood species to be found anywhere and sturdy solid wood construction. The 8 spots on top of the stand line up with recesses on the bottom so your treasures stay put. At 20 pounds, you can display your spear or cane collection without ever having to worry about it tipping over. Takes 15 minutes to assemble. **\$399**

BRITISH CAMPAIGN FURNITURE-AFRICAN MAHOGANY

BRITISH CAMPAIGN FURNITURE-These beautiful and functional pieces are almost identical to the ones designed for the British military over 100 years ago. Each piece is handmade, one at a time, by skilled South African craftsman and features exotic African mahogany frames, supple vegetable tanned leather, solid brass fittings and the same extra-thick canvas that covers most of the safari vehicle seats in Africa. While the British did not invent the concept of grand adventures, they were the ones who perfected how to incorporate luxury and portability into functional, durable furniture. These heirloom quality pieces are refined enough to be displayed inside and rugged enough for field use. All but the Gun Rack come with a canvas drawstring bag for easy transportation. Order yours today and take a bit of British ingenuity with you wherever you go!

GUN RACK holds up to nine firearms in leather covered spaces that are wide enough to hold SxS shotguns. Opposite side incorporates a tray that will hold four boxes of big bore ammo or six boxes of shotgun shells. 36" wide, 32" tall and scissors down to a flat 5" for transport. \$799 plus \$150 for professional packaging and shipping within the continental US.

ROORKHEE CAMPAIGN CHAIR is named in honor of the headquarters of the Indian Army Corps of Engineers at Roorkhee, India. This mainstay of the Army and Navy Stores catalog is comfortable, easy to assemble/take apart, and flexes for use on uneven ground. Thick khaki colored canvas seat will last a lifetime - \$599

SIDE TABLE is perfect between a pair of Roorkhee chairs to hold a sundowner, an ashtray, appetizers, or all three! The top measures 24" x 19" and the table stands 24" tall. - \$399

CHAMPAGNE BUCKET/WASH BASIN will allow you to take a bit of civilization with you wherever your adventures take you. While handy as a wash basin, complete with the sewn soap holder, it was most likely used primarily to chill a bottle of wine, spirits or on special occasions, a bottle of champagne - \$349

SPECIAL PACKAGE DEAL-2 Roorkhee Chairs and 1 Campaign Table for \$1,549 - Save \$100
