What makes a company successful? Why do you love your favorite brands? It probably has something to do with how well your expectations are met and even exceeded each time you use that item or deal with that company. Businesses might gain your loyalty in any number of ways—by providing a surprising level of customer service, by offering exciting products available nowhere else, or by making it easy to get everything you need in one convenient spot. What companies do to establish their “reserved parking space” in the minds of their customers is far less important than making sure they earn the right to park in a better spot over time.

Sometimes though, companies start out strong but break their early brand promise and lose their way. One of the most common ways to lose customers is with cost-cutting, a slippery slope rationalized by statements like: “We can make it cheaper if we move production overseas,” or “Our profits will increase if we substitute X for Y,” and “No one will even notice,” etc. Of course, these measures start with the assumption that the customer is asleep at the switch, an error that typically backfires, leading to lower sales and more cost-cutting to compensate. The bottom line is that you can’t take your customers for granted and expect to succeed.

At African Sporting Creations, we have taken a different approach. We start with the assumption that you are paying attention to what we are doing and will support us even more if we constantly improve our products and selection. For example, a few years ago we transitioned from wood to brass pins to secure the connector to the shaft on our Carbon Fiber Shooting Sticks. These brass pins are made to our exact specifications and cost \$3 each, adding \$27 to each set, while we kept our price the same. On the face of it, this approach doesn’t make much sense until you consider that purchases of our shooting sticks have doubled over the past two years by leveraging this same approach across all of our models. Our commitment to continuous improvement is a “win-win” — you get products that are always getting better, and we get the sales we need to expand our business!

Thank you for joining us on this exciting adventure. Email us at [info@africansc.com](mailto:info@africansc.com) to share your thoughts.

Best Regards,

*Jim & Elisabeth*

## PETERSEN'S HUNTING

### Best New Knives for 2019

Joseph von Benedikt - February 05, 2019

Even if it weren't the alphabetical first, I'd have put this knife at the top and given it a "best of the best" endorsement. Handmade in South Africa by a group of brothers, these **Arno Bernard** Dagga Boy drop point knives feature spectacular Bohler N690 surgical stainless steel hafted in Cape buffalo horn and warthog ivory. Perfectly balanced, they come incredibly sharp—as in scalpel sharp. Marketed exclusively through **African Sporting Creations**, each costs \$399—and is worth more. This is a knife with which you can skin a thousand whitetails, plus all the moose, brown bear, kudu and buffalo you please, and then hand it down to your kids in perfect condition.

### Out Of Africa: The Best Boot Company You've Never Heard Of

Boots and shoes handcrafted by The Courteney Boot Company have gained a reputation as being among the best footwear made anywhere in the world. (Photo by Gale Rice, Owner of The Courteney Boot Company). GALE RICE, OWNER OF THE COURTENEY BOOT COMPANY

The global footwear market is estimated to grow to **\$426 billion by 2022**. The boot and shoe industry is growing at 6.2% annually and is experiencing one of the longest and most profitable periods in the history of the footwear market.

To compete, industry leaders like **Nike**, **Wolverine**, **Red Wing** and the **Thursday Boot Company** are embracing high-tech automation, analytics to identify and understand customer demand and buying behavior, machine learning to automate manual processes, and digital solutions to maximize customer engagement in stores and online.

One boot company, however, has found success by doing the opposite. In fact, the company many boot and shoe experts consider to be the best in the world has a factory that can only manufacture 30 pairs of boots per day. All are made to order. The company does not keep any shoes or boots in stock. Boots require three weeks to be manufactured and the waiting time for a customer to receive his/her shipment averages three months.

Welcome to the world of The **Courteney Boot Company**.

The Courteney Boot Company, named after the famed explorer, hunter and conservationist, Frederick Courteney Selous, is located in Bulawayo, Zimbabwe.

### Essentials For An African Safari

G&A Staff; Photo by Michael Anschuetz - September 10, 2018

Remembering the safari of a lifetime should go beyond taking pictures and hunting game. In preparation, G&A believes that you should take gear that will enable a safe and successful adventure while embracing Africa's romance. May we suggest starting at **African Sporting Creations** for unique, hand-made products that embody the ruggedness of Africa? Among the many items the company offers, there are four items we feel no hunter shouldn't leave home without: shooting sticks, a good sling, an Arno Bernard knife and Courteney boots.

Courteney boots come in various styles and are made from Nile crocodile, Cape buffalo, hippo, or ostrich leather. The most popular boot is the Selous, named after legendary explorer, conservationist, hunter and soldier Frederick Courteney Selous. These boots are constructed entirely from buffalo and impala, and hand stitched in Zimbabwe. The sole is made of a rubber "tyre" tread, and is highly regarded for producing little-to-no noise in the bush.

One item **African Sporting Creations** is best known for are their shooting sticks. Made in-house of hickory, carbon fiber, or select, limited-edition African woods, the sticks feature leather-wrapped tops hand-sewn from buffalo or zebra leather. The leather improves grip while protecting the rifle's forend when it's time to shoot. Anodized aluminum connectors assemble quickly and the sticks can be stored for transport in a provided canvas carry case.

No safari rifle is complete without a sling and no pair of binoculars should be either. The company offers a canvas and leather bino sling from Els & Co. The strap assembly is comfortable with three traditional brass studs that push into eyelets for adjusting to improve weight distribution.

Knives are a collector's favorite and **African Sporting Creations** is the U.S. master distributor for Arno Bernard knives featuring handles made of buffalo horn and warthog tusk. They also make great gifts to leave behind with your professional hunter or trackers who share your experience.

Most of the products you'll find at **africansc.com** are available nowhere else, just like your memories.

# AFRICAN SHOOTING STICKS

Many years ago we only offered one product: **African Shooting Sticks**. We set out to make the best ones available, and the rest of the business developed from that first, initial product.

Our typical customer purchases up to a half-dozen, less expensive, aluminum shooting sticks before they finally “invest” in a set of ours. While our sticks “cost more,” they will save you money over the long run, and your grandchildren will be proud to use them one day.

On our Shooting Sticks the connector is the strongest component because it is milled from a solid block of aircraft aluminum and has three points of contact for unmatched strength. The adjustment mechanism on competitive Shooting Sticks are usually the weakest component because they rely on plastic or thin, stamped metal pieces. This explains why they typically offer a one-year limited warranty versus our unconditional, lifetime warranty.

In addition to being strong, they are also stealthy. The most unnatural sound in the wild is a metallic one. Our competitors use a hollow aluminum tube with pointed metal bottoms that can make noise which scares off game. Our solid wood shafts and pencil sharpened wood or polymer bottoms are the quietest on the market and help you get in close.

No one ever regretted owning the very best, and our Shooting Sticks have earned a cult-like following among PH's and serious hunters all over the world. Read for yourself why people who hunt for a living (or live to hunt) consider them to be beyond compare!

**UNCONDITIONAL  
LIFETIME  
WARRANTY**

Joseph Von Benedikt  
August 2016

Shooting sticks have become standard tools for hunting in many places around the globe. A solid pair of sticks provides you with a steady platform from which to deliver an accurate first shot, regardless of the terrain. African Sporting Creations offers a line of handmade sticks designed to last forever and backed up with an unconditional lifetime warranty.

## GRAY'S BEST

Jim has experimented with various woods, improving the design with each generation until now he is close enough to perfect to rate a **GRAY'S BEST**.

**Terry Wieland**  
Expeditions & Guides

“I am a firm believer in “African style shooting sticks” and have been using sticks from African Sporting Creations for several seasons. This year African Sporting Creations’ screw-in tripod has become a permanent part of my gear. I took them to Pakistan in January where I used them “short” to take a Sind Ibex and “long” to take a Himalayan Ibex at long range in deep snow. Right now I am in Argentina – and you can bet my sticks are here with me!”

– Craig Boddington

# SUPERCOMPACTS & CARBON FIBER STICKS

**SUPERCOMPACTS** are our most versatile shooting sticks. Use the top section alone to shoot from the prone position. Connect the top section to the bottom ones, which feature quiet wood points, to shoot from the kneeling position or to make a 48" walking staff for navigating rough terrain. Use all three sections to shoot from the standing position.

To make sure you can plant them in the ground, pointed tips are always facing down whether you use one, two, or all three sections. The shorter wood sections make these sticks even more rigid than our other models. They are also ideal for those who like to travel with their firearms incognito in a shorter take-down case (Blaser®, double rifles) and need a more compact set of shooting sticks. Instead of one set of anodized take-down connectors, these have two.

**Featherweights**-Weigh approximately 2.5 lbs. and use light-weight but very rigid exotic African hardwood for the top and bottom sections. Hickory stained, a medium brown color is used for the middle sections. **\$429**

**Standards**-Larges weigh approximately 3.0 lbs. and use hickory stained medium brown for all sections. **\$379**

Medium size fits hunters 62"-67," and the longest section measures 26." Large size fits hunters 68"-73," and the longest section measures 26." XL fits hunters above 74," and the longest section measures 28.25" (will fit in a Blaser® case). *Engrave your name on the connector for \$49. Order by 12/15 for holiday delivery.*

## CARBON FIBER SHOOTING STICKS

**PLATINUM CARBON FIBER SHOOTING STICKS** are for anyone who wants the lightest and most rigid sticks available. Carbon fiber is four times stronger than steel yet weighs less than aluminum. *Standards weigh approximately 2.5 lbs - \$449 Large (68-73") and XL (above 74"). Engrave name for \$49. Order by 12/15 for holiday delivery.*

## SHOOTING STICKS: FREQUENTLY ASKED QUESTIONS

### ■ How quickly do they ship?

We ship stock Shooting Stick orders the next business day. If you want the connector engraved with a name or initials, it will add 7 business days to the delivery time.

### ■ What size should I order?

We provide size information based on your height. If you are between sizes or plan to take steep uphill shots, (need them longer to avoid scope eye) we recommend the next larger size. You can always work with a set that is a little too long. If they are too short, in addition to the risk of "scope eye" the "V" at the top that supports the fore end will be too close together. Since it will not be wider than your fore end, the far leg has a tendency to kick out during recoil.

### ■ What are the most rigid models you offer?

All of the models offered are very rigid. Keep in mind that you do not have to press your rifle down into them to improve accuracy. They are simply a rest for your rifle and another point of contact. If you exert a lot of downward pressure, your muscles will fatigue and your groups will actually get larger.

### ■ How long are they when taken apart?

All of our models unscrew and can fit in a full-length rifle case. Large's range from 36-38" and XL range from 38-40" long. If you are traveling with a take-down case or want to put them in a duffel bag, then our large or XL SuperCompacts will fit in either with an ID length of at least 28.25."

### ■ How much do they weigh?

Domestic wood, large-sized sticks weigh approximately 2.5 pounds. Exotic wood sticks weigh a half-pound more due to their greater density, but this is still less than most premium Aluminum tripods. SuperCompact Hickory domestics weigh approximately 3 pounds (Featherweights weigh ½ pound less) due to the extra set of connectors which increase their versatility and allow them to unscrew to a shorter length.

### ■ Do you repair them?

Yes, but we have only done this less than a dozen times in 15 years. If you need a repair, simply send them back with a note explaining what you need done. If you need parts you have lost or worn out, simply order them online.

## SILVER AFRICAN SHOOTING STICKS

These are just as functional as the Platinum exotic wood ones, but without all the bells and whistles. Shafts are Hickory, a tough, rigid wood used for axe handles, and these are combined with anodized take-down connectors. They include one set of hand-sewn leather tops and a canvas carrying case. These are the same version Dirk de Bod, the SCI and DSC PH of the Year, has been using for the past 10 years.

*Standards: for 73" and shorter hunters - \$239*

*XL: for hunters 74"+ - \$259*

# AFRICAN SHOOTING STICKS

## PLATINUM EXOTIC WOOD STICKS

These are the quietest and toughest sticks on the market that have earned the coveted Gray's Best award in 2009. The rigid, exotic wood shafts come with hand-sewn, Cape buffalo tops that will not snag on brush. The anodized take-down connectors are milled out of solid aluminum and have three points of contact for unmatched strength. Use the same sticks the best known PHs in the business rely on season after season and that travel everywhere with Craig Boddington. Heavy-duty canvas carrying case included. Available in the three exotic woods pictured below.

# DARK CONTINENT SHOOTING STICKS

Red, black and brown are the colors most commonly found on Maasai warrior shields which is why we selected three stunning exotic woods in the same colors for this exciting new model. The wood shafts are hand-finished from African Sapele (red), African Wenge (black) and African Shedua (brown). We engrave each of the top three connectors with the names of its wood species so you will always remember them. The sticks are available in large length only (fit those 68"-73" tall), weigh less than 3 pounds, and are 36" unassembled.

Our Dark Continent Shooting Sticks are perfect to hang a favorite hat or binoculars from in a special corner of your trophy room or to commemorate a special hunt with your son or daughter. They are a great gift to your PH or to use on your next hunting trip locally or abroad. – \$499 Engrave name for \$49 | Order by 12/15 for holiday delivery.

## All sets come with the following:

- Gray hippo or gray elephant hand-sewn, leather tops
- Shock cord holes lined with custom brass sleeves
- Mammoth ivory "Night Sights" so you know which two legs to grasp for set-up (*not available in CA, NY or NJ*)
- Three anodized aluminum connectors engraved with the name of the three wood species
- Heavy-duty canvas carrying case
- The only option offered on these top-of-the-line sticks is engraving the lucky recipient's name in the wood of the middle shaft.

# BUILD YOUR OWN EXOTIC WOOD STICKS

NEW

We are pleased to offer you the option of building your own set of Shooting Sticks. The most common shooting stick questions we get asked are; which are the best ones and which one should I buy? The answer depends on what is important to you.

If **VERSATILITY** is your primary concern, we recommend our **SuperCompacts**. Depending on how many of the three sections you use, they can help you make shots from the prone, sitting/kneeling and standing positions. If weight is also a concern, then our Featherweight SuperCompacts would be the ideal choice as they only weight 2.5 lbs. If you are over 6' 4" tall, then tell us how tall you are and we can make this model long enough to work for people up to 7' tall.

If **WEIGHT** is your primary concern, we have two different options and we have already covered the most versatile one of them above. Our two section Featherweight (2.0 lbs.) Acacia Shooting Sticks weigh approximately half as much as many of the premium Aluminum Shooting Sticks on the market and are stiffer and much quieter. These are lighter than the Featherweight SuperCompacts, as they only have one set of Aluminum connectors.

# ELS & CO. FINE LEATHER

Throughout the centuries, leather has always been associated with quality, a product that can be passed down for generations. When cared for properly, it ages like a good bottle of red wine, becoming more than what it was when made.

Products are crafted from the best quality, top grain, thick, vegetable tanned leather. After molding the leather, it is painstakingly hand-stitched, a lost art that makes the leather look and feel like it was made 100 years ago. The result is a product that will last several lifetimes.

Finding skilled craftsman in a mass-produced world is no small feat and this is the most important part of their mission. Els & Co. primarily employs Xhosa women because they are one of the proudest in the world. To learn to be an exceptional craftswoman, you must first take pride in what you do. Each woman is trained from scratch, so she can learn the labor

intensive process of crafting fine leather products. Every product is proudly stamped with the initials of the craftswoman who brought it to life.

## ELS & CO. PERSONALIZATION

For a \$15 fee, we are pleased to offer this on any Els & Co. product with a flat surface suitable for personalization (excludes wind check, single and double pheasant carriers, etc.) which retails for more than \$200. Personalization has a 90 day lead time, and you can emboss initials or a full name. If you want to emboss your company logo on an item for customer or employee recognition gifts, please visit the Els & Co. section of [www.africansc.com](http://www.africansc.com) for lead times, costs, etc. For obvious reasons, we cannot offer returns on personalized items.

## MINI FIELD BAR

This is the smaller version of the full size field bar (page 17) which is lighter and easier to carry as it stores about half as much. It measures approximately 14" tall, 9" wide and 9" deep. It has room to store one bottle of your favorite liquor, four cans of soda or tonic, lemons, a knife, and a corkscrew. It includes two Bohemian crystal glasses, two leather coasters, a Stanley® wide-mouth double-walled ice bucket and a solid oak cutting board that nests in a compartment on the very bottom. The full sized field bar was an unprecedented success last year, and we expect this to be even more popular. – \$899

## TIFFIN SNACK BAR

Snacks and sundowners go hand in hand, so this beautifully crafted piece is the perfect companion product for either of the two leather field bars. The durable stainless steel tins nest together and open up into three separate sections. All together they are about the size of a quart can of juice and the leather wrapped handle makes for comfortable carrying. The craftswoman who creates this piece with over 200 expertly placed stitches stamps her initials on the bottom – \$309

### SOMERSET COVERED AND SOMERSET OPEN CARTRIDGE POUCHES

## ARNO BERNARD® KNIVES: FREQUENTLY ASKED QUESTIONS

### ■ What type of steel is used?

Stainless Steel knives use Bohler N690, a high quality stainless steel which is then heat treated and tempered, that hardens the blade to a 59-60 on the Rockwell hardness scale. This level of hardness holds an edge very well, but is not so hard that it is brittle or difficult to sharpen. Damascus knives utilize Damasteel® stainless steel which is the best that money can buy.

### ■ How quickly do you ship?

We stock over 300 knives to ensure almost all stock knife orders ship the next business day.

### ■ How are the knives sharpened?

Each one is hollow ground (done on a wheel) by hand, by Franco Bernard.

### ■ I am thinking about giving one of them as a gift; can I get the lucky recipient's name or initials engraved on the knife?

Yes, you can get any stainless steel knife with a mammoth handle (Inner tusk or molar) engraved for only \$49. Please note this adds about a week to the delivery time, and once a knife is personalized we are unable to accept returns. Due to the striations on the Damascus knives, we do not offer engraving on them.

### ■ What about the sheaths?

There are three types of sheaths available, in two types of leather. Each of them is hand-sewn by Juan Bernard. The Bongo, Badger, Bateleur and Marmoset models come with their new locking safety sheath in thick, bovine leather. All other stock knives come with a traditional wrap-a-round bovine leather sheath that covers more than 3/4 of the entire length of the knife. All other Mammoth Bark and Mammoth Molar handled knives come standard with an upgraded sheath in real Ostrich Shin Leather, which is an ASC exclusive offering.

### ■ What if I lose my sheath?

We inventory almost all their sheaths and you can simply order a replacement online, or just give us a call. Go online to see what model you have as these are ordered by the knife's model number.

### ■ Is mammoth ivory and molar legal to ship anywhere?

State laws prevents us from shipping this to CA, NY, and NJ We also do not ship this out of the country. Please check your local laws to ensure you are allowed to order a mammoth knife. We can ship warthog ivory anywhere in the USA.

## 2019 MARQUIS COLLECTION

**BONGO | O/A 7.6"**

An efficient drop point design perfect for medium sized game. It will be your "go to" knife for any whitetail or plains game excursion.

**BADGER | O/A 7.2"**

For those who prefer a bit more of a clip point design, the Badger is a great design for processing small game, fowl, and even deer-sized animals

**BATELEUR | O/A 6.8"**

A bird and trout knife that can also be used for caping; and with its new locking sheath design, it is also an excellent EDC knife.

**MARMOSET | O/A 6.3"**

Great for use on fowl but with a bit more belly than the Bateleur. Perfect for processing small-medium sized game; it also excels as a beautiful EDC.

# ARNO BERNARD® SLIP JOINT KNIVES

## RINKHALS SLIP JOINT FOLDER

*Ivory Warthog Tusk*

*Mammoth Molar*

This Arno Bernard knife takes you back to simpler time, when your first pocket knife opened and closed without any locking mechanism. This updated version of the classic slip joint is 6.5" overall with a 2.8" blade and a full sized 3.7" frame with a 2.8" handle inlay. It features a beautiful design with a versatile, RWL34 stainless steel blade, a nail nick for easy opening and a thumb notch for comfort. Just like your old Buck®, Western® or Case®, the blade features a mirror finish. The hand-sewn, leather slip protects it in your pocket, and the matching bead attached to the leather lanyard makes it easy to access. This lightweight knife sheds ounces by using Titanium for the frame, a pocket clip, collar and screws and only weighs 2.3 ounces!

The slip joint mechanism of this knife features an innovative "safety" when it is approximately halfway open which causes the blade to be under very little tension, so it is easy to move your fingers out of the way before tension builds again and assists you in closing (or opening) the knife. Most slip joint knives have continuous tension throughout their entire range, which in some cases causes the blade to close before you can get your fingers out of the way. Since this knife does not have a mechanism that locks it open, always cut with the blade going away from you to prevent injury.

There are two natural choices for handle inlays; ivory warthog tusk or fossilized mammoth molar.

*Ivory Warthog Tusk (above left) – \$499 | Mammoth Molar (above right) – \$649*

# ARNO BERNARD® Cased Steak Knives

MAMMOTH MOLAR

WARTHOG TUSK

## CASED SET OF SIX STEAK KNIVES

No expense was spared in the creation of these one-of-a-kind sets. The knives are 8.1" overall with sleek, contoured 4.05" handles that showcase the stunning beauty of polished Mammoth Molar, hand-buffed ivory Warthog tusk or Kudu horn. Five stainless steel pins on each side keep the handles securely fastened to the full length tang. The N690 Bohler stainless steel blade is 4.05" long and Franco Bernard puts a razor sharp, hollow ground edge on every one.

The custom crafted, African mahogany presentation case measures approximately 11.3" wide x 4" deep x 2.3" tall and features recessed brass hinges, a magnetic closure and contrasting exotic wood highlights on all four corners. A center divider keeps the knives securely separated, with three knives to a side. **Hand wash in warm water and hand dry – do not put in a dishwasher.**

*Mammoth Molar (top) – \$2,999 (cannot ship to NY, NJ or CA)*

### CUSTOM-MADE OLIVE WOOD KNIFE DISPLAYS

These custom-made olive wood knife displays are available in two versions that will hold three or six knives. Olive wood is a stunning exotic wood with an abundance of character provided by knots, cross-graining and burls. The three unit display is 13" tall, 6-8" wide and approximately 7/16" thick. The six unit display has a similar width and thickness but is approximately 26" tall. Knives are securely held in place by the shelf they sit on and by the grooves cut in the polished, real ivory warthog tusks. Three knife displays are perfect for smaller collections, and the six unit one is great for steak knives on a sideboard for larger collections.

six unit (on the left) – \$399 | three unit (on the right) – \$249.

# THE COURTENEY® BOOT COMPANY

## THE COURTENEY® BOOT COMPANY: FREQUENTLY ASKED QUESTIONS

### ■ How quickly do they ship?

Almost all stock Courteney® orders ship the next business day. We stock more than 20 styles and over 400 pairs in Ohio. Even if we do not have the exact model you want, we can send you something very similar, if you need them quickly.

### ■ Do you accept custom orders?

Yes, please see our Build Your Own Exotic Boot section for details. If you want a boot built to your particular specifications, you can expect delivery in approximately 120-150 days. One of our most popular custom orders is for the higher Patrol in black Cape buffalo to meet military, pilot and law enforcement dress code requirements. Please note we are unable to accept returns on boots built to your particular specifications.

### ■ What size should I order?

If you are a current Courteney® owner, order the UK size stamped in the top right and left hand corner of the logo patch located above the heel. If this is your first pair, simply provide your US size and we will send you the equivalent UK size. All the styles we offer are available in half sizes.

### ■ How are the men's styles cut?

The boots run wide so if you have a wide foot (EE) they will fit you right out of the box. If you have a regular width foot (D width), then order one of the two styles we offer.

### ■ Do they have a lot of arch support?

They are cut relatively flat. If you have a pronounced arch we recommend you order a set of our SOLE insoles which quickly mold to your feet. The medium red insoles typically take up about a half size so if you are ordering those we suggest ordering your boots a half-size larger. If you are "between" sizes, the thin gray insoles usually take up any extra space.

### ■ What socks do you recommend?

We recommend the thick Rohner Trekking socks from Switzerland. They are heavily cushioned and the Merino wool wicks moisture away from your feet.

### ■ Are Courteney® Boots waterproof?

All of the Courteney boots are treated to be water repellent but they are not waterproof. The application of the Courteney conditioner will keep them water repellent. Due to the hot temperatures in Africa, these boots are designed to breathe so that moisture does not accumulate and cause blisters. To be truly waterproof, you need some type of membrane (for example, GORE-TEX) but boots with that type of material are typically too hot for Africa as they do not allow moisture to evaporate freely.

### ■ Do you offer ladies styles?

Yes, we offer three different ladies styles but can custom order anything you want with a 120-150 day delivery time.

### ■ What is your return policy?

Try any boot we stock in your home and if you need a different size or want to return them, just send them back and put a note in the box telling us how you would like to proceed. No return authorization is required.

## WHAT COURTENEY® BOOT CUSTOMERS SAY ABOUT THEIR BOOTS

**Courteney®**  
HANDCRAFTED ADVENTURE FOOTWEAR

“I own two pairs of Courteney boots, had them for years; very comfortable and wear forever. Not cheap, but they last a lifetime.

They are great! I have 2 pairs - both are equally as comfortable and built to last.

I bought a pair of the Selous style around 20 years ago. You cannot wear them out. They offer great ankle support, comfort and take on any environment.”

# EXOTIC COURTENEY® WIDE (EE) BOOTS & SHOES (D/E)

**NILE CROC SAFARI IN CHOCOLATE (left) AND TOFFEE (right)** -The tough and beautiful belly skin of this apex predator is showcased on luxury goods from around the world and adorns everything from luggage to designer purses. Boots costing more than twice as much use less than half the crocodile hide of this model and usually take half a year or more to have custom-made. The casual cleat sole in natural rubber makes this model ideal for office use or a night on the town. *Men's US 8-12.5 in EE. – \$1,099*

Constructed entirely by hand from Cape buffalo hide uppers, each is as individual as the serial number it bears. These are made without a water-proof membrane to allow them to breathe freely which makes you less susceptible to blisters. We inventory over \$100,000 of their fourteen most popular styles in Ohio, so orders ship the next day. Wear the legendary safari boot of Africa on your next adventure!

## NILE CROC BUSHVELD IN CHOCOLATE

Perfect for the office or any location where you want to arrive in style. Luxurious chocolate Nile crocodile uppers and smooth, all-rubber ripple sole will provide all-day comfort. *Men's US 8-12 in D/E. – \$799*

## BUFFALO & CROC SAFARI

Combines brown Cape buffalo with chocolate Nile crocodile accents. The tough and beautiful belly skin of this apex predator is showcased on luxury goods from around the world and adorns everything from luggage to designer purses. *Men's US 8-12 in EE. – \$699*

## BROWN HIPPO SAFARI

This tough hide has a texture similar to elephant, but is much softer. View grey Hippo on website. Both feature the durable cleat sole. *Men's US 8-12.5 in EE. – \$599*

## OSTRICH SAFARI

Full quill ostrich with a comfortable sole make a great combination! The distinctive dimpled texture is unique and wears like iron. *Men's US 8-12 EE with casual cleat sole; Women's US 6.5-10.5 with ripple sole. – \$499*

# COURTENEY® MEN'S REGULAR (D) WIDTH BOOTS & ACCESSORIES

**MEN'S REGULAR WIDTH SELOUS W/ TYRE TREAD SOLE** is made from thick, extra-soft Kudu hide for unmatched comfort. We pair this with their iconic TYRE TREAD SOLE. Now everyone, even those with a regular width foot, can enjoy a pair of these incredible boots from Africa. *Men's US 7-14 D. – \$399*

**BROWN KUDU SAFARI IN REGULAR (D) WIDTH** is a four-inch ankle height boot with the "middle of the road" cleat sole, brass speed lacing, padded Impala collar plus a double stitched and reinforced vamp which make the Safari an exceptional choice as a true stalking boot. *Available in Men's US 8.0 – 12 D – \$399*

**WARTHOG SHOE HORN** has an expertly turned shaft from exotic African Bubinga and is topped with a large, hand-buffed ivory tusk. Fits comfortably in the hand, measures approximately 20" overall and the leather lanyard makes it easy to hang – \$249

**SOLE INSERTS** mold to your feet in a week or warm them in an oven for an instant fit. Provide additional arch and heel support. *Men's US 8-12 in thin and medium thickness – \$50*

**THICK ROHNER® TREKKING SOCKS** are made in Switzerland from the best itchless merino wool and feature a unique cushioning system engineered to meet the demands of anyone who walks long distances. *Men's S, M, L & XL – \$25*

## COURTENEY® FOOTWEAR CARE KIT

Help keep your exclusive boots in top condition and ready for your next adventure with Courteney's care kit. Contains polish, brush and spare laces. – \$39

## COURTENEY® GAITERS

Made from thick Kudu leather and are available in two styles; 8" zippered that go right over your boots and a shorter, 5" shoe-lace model that you have to put on before your boots. Both keep annoying seed pods out and are quieter than nylon versions. *5" lace tie (left) – \$50 | 8" zippered (right) – \$60*

# COURTENEY® WIDE (EE) BOOTS & Shoes (D/E)

The **SELOUS TYRE TREAD SOLE** features tough Cape buffalo uppers and a soft impala skin padded collar surrounding the ankle to provide support and comfort. This is our best seller and comes with a full range of accessories to keep them in perfect condition. *Men's US 7-15.5 EE;*  
*Women's (all brown) 6.5-10.5 – \$399*

The **PATROL** is a military styled boot, lacing all the way to the top with a soft antelope hide collar and full bellows tongue. Designed with the hunter in mind, the Patrol gives extra support for the most demanding pursuits.  
*Men's US 8-12 EE – \$349*

The **ALL BROWN SELOUS RIPPLE SOLE** has the same rugged construction as above, but in all-brown with a smoother and quieter sole. It's the perfect stalking or casual boot. Accessories included. *Men's US 8-12.5 EE – \$399*

The **SAFARI** is a shorter, 4" ankle height version of the Selous and their second most popular style. This is Courtney's quintessential stalking boot.  
*Men's US 8-12 EE – \$339*

**HUNTER** – This below-the-ankle boot features a padded collar, extended facing for additional ankle support and a ripple sole that allows you to move with stealth.  
*Men's US 8.0-12 EE; Women's US 6.5-10.5 – \$299*

The **BUSHVELD** is a slightly shorter version of the Safari that features two-tone Cape buffalo hide uppers, soft rubber ripple sole and brass speed lacing which makes this an excellent choice for everyday wear. *Men's US 8-12 D/E. – \$249*

The **VELLIE** (*pronounced fellie*) is a casual Kudu leather model with distinctive styling enhancements you can wear into town or to the office. Several customers say they have had theirs for more than a dozen years. *Men's US 8-12 D/E in light tan suede, tan leather or brown leather (shown). – \$199*

The **CAMPFIRE** is the perfect slip-on after a hard day in the bush. This open backed shoe is a must-have when you do not want to be bothered with laces and want to start relaxing ASAP! Made from soft tan Kudu hide with a decorative antique brass buckle. *Men's US 8-12 D/E with ripple sole. – \$219*

# COURTENNEY® ACCESSORIES

## WOMEN'S GEMSBOK BRACELETS

These bracelets are crafted using a process that makes the Gemsbok horn pliable enough to be turned into thick, durable strands similar in size and color to elephant hair. The inky darkness of the horn contrasts beautifully with the Sterling Silver hardware. The leather covered steel memory band adds durability and can be opened up (grasp like a wishbone) or made smaller to provide a custom fit. We offer four models; a thick bangle, one that has two silver strands on the top and bottom, one that features two sterling silver elephant knots, and the thinnest one which is a twisted bangle. Combine them for an even more interesting look! Visit [www.africansc.com](http://www.africansc.com) for details.

## LADIES ELEPHANT HAIR BRACELETS

Legend has it that elephant hair bracelets are supposed to bring the wearer good fortune. Our maker had the last stockpile of elephant hair that could be legally imported into the USA, so these pieces will not be available for long. Care for these by rubbing in a little olive oil periodically to prevent them from drying out, especially in arid climates. We offer three distinct styles, and all are sized for a woman's smaller wrist. The thin braided bracelet offers an elegant look. The thick two-knot eighteen strand version is the largest bracelet offered and makes a dramatic statement. The two-knot seven strand bracelet offers a more subtle look and looks great combined with either of the other models.

Thick, two-knot eighteen strand (top left) – \$219 | Thin braided (bottom left) – \$179

## REPRODUCTION ZULU SHIELDS

These are made by an 85 year old Zulu Warrior and his two apprentices in South Africa. They incorporate everything you look for in an authentic Zulu shield; eye-catching Nguni cowhide, a wooden main beam and decorative impala hide fringe at the top. Colors of the shields, which are typically spotted include, black, white and tan. We stock two shield sizes; *XL* is 60" x 24" and *L* is 52" x 20" with other sizes available upon request. These are sold in four-piece sets which include; a shield, impala topped main beam, knobkerrie and spear. 60" set – \$749 | 52" set – \$699

# COLONIAL ERA SHIELDS

## COLONIAL ERA SHIELDS

- A** Ancient 36" Nile crocodile shield (from the Sudan) with raised boss and non-detachable spear main beam. Was designed to parry blows and then stab an opponent. Thick, metal tip appears to be a miniature version of the Manton spear heads the Colonial British used on their boar lances – \$1,900
- B** Beautiful colors and great condition-dates back to the very early 1900's. Both ends have been pulled towards the middle as it has shrunk so this 30" shield is concave in shape. Features a heavy wood frame, raised boss and two rare talismans (hide from the animal a Jr. Moran slays to become a Sr. Moran) still attached (to left of photo) to it – \$2,500
- C** Colonial era 33" shield from the late 1800's that has dried and warped some over time which is very typical of pieces that are not displayed in a climate controlled environment. Rich patina and an incredible wood frame with a raised boss – \$2,200
- D** Colonial era 33" shield from the late 1800's that has dried and warped some (less than item C) over time which is very typical of pieces that are not displayed in a climate controlled environment. Rich patina and an incredible wood frame with a raised boss – \$2,500
- E** Newer 27" Maasai shield with good colors, heavy-duty construction and in nice shape – \$799
- F** Massive 40" shield that was purchased in the 1930's. In great condition with vibrant colors – \$1,900
- G** Colonial era piece that has combat "beauty marks". This shield has great colors and three slash marks and one damaged spot (on top left edge) that looks like it could have been caused by a war club impact. Nicer than most of the items on display in museums – \$2,999
- H** Newer 36" piece with some damage on the back that would not be visible if it was hung – \$999
