OVER 75 NEW PRODUCTS INSIDE & 100'S MORE AT
www.AfricanSC.com

When I was a teenager I used to eagerly await the arrival of the Willis and Geiger® catalog. Back then I dreamt of two things-being able to afford one of their leather bomber jackets and going on safari. Unfortunately, the sad tale of Willis and Geiger® is an all too common one: successful entrepreneur sells out to a big corporation that does not share the same vision and passion; quality standards erode; product development stagnates; after a string of owners, the company goes out of business.

Early on in my career I worked for a Fortune 500 company, and, for the past two decades, I have answered to a Board of Directors. While those jobs paid the bills, I found little joy in them. The bureaucracy associated with matrix style organizations meant getting everyone to agree on the path forward consumed most of my time and slowed progress.

In stark contrast to that is the freedom I enjoy with this labor of love. In what many would consider a very difficult year, we are excited to tempt you with more new products than ever before. Most people think you make quantum leaps when the market is good. In my experience, the opposite is true; when the economy turns, you get a rare opportunity to separate yourself from the pack by pouring on the coal!

This year, that is exactly what we at African Sporting Creations have done. When COVID-19 hit, we ran our \$10,000 First Responder Give-Away to make sure you had something positive to focus on by hearing about the good work so many were doing to keep us safe. Right after that, we ran our biggest customer sweepstakes ever. Since we had a little more time on our hands, we designed our new Fly's Eye® bipod with two points of contact for unprecedented accuracy. We also expanded our offering of Rhodesian Teak Furniture and are introducing a new line of plated silver housewares. For our African suppliers, 2020 has been a particularly tough year so we made the conscious decision to buy more from them than we expect to sell in order to provide them with a bridge to the future.

The only thing we can control during these trying times is our attitude, and ours is best summed up by that famous quote attributed to Rear Admiral David Glasgow, "Damn the torpedoes, full speed ahead!"

Hopefully somewhere there is a teenage boy or girl checking their mailbox for this catalog this fall. If that happens, we are on the right track.

Good Hunting!

PETERSEN'S HUNTING

Best New Knives for 2019

Joseph von Benedikt - February 05, 2019

Even if it weren't the alphabetical first, I'd have put this knife at the top and given it a "best of the best" endorsement. Handmade in South Africa by a group of brothers, these **Arno Bernard** Dagga Boy drop point knives feature spectacular Bohler N690 surgical stainless steel hafted in Cape buffalo horn and warthog ivory. Perfectly balanced, they come incredibly sharp—as in scalpel sharp. Marketed exclusively through **African Sporting Creations**, each costs \$399—and is worth more. This is a knife with which you can skin a thousand whitetails, plus all the moose, brown bear, kudu and buffalo you please, and then hand it down to your kids in perfect condition.

Out Of Africa: The Best Boot Company You've Never Heard Of

Boots and shoes handcrafted by The Courteney Boot Company have gained a reputation as being among the best footwear made anywhere in the world. (Photo by Gale Rice, Owner of The Courteney Boot Company). GALE RICE, OWNER OF THE COURTENEY BOOT COMPANY

The global footwear market is estimated to grow to **\$426 billion by 2022**. The boot and shoe industry is growing at 6.2% annually and is experiencing one of the longest and most profitable periods in the history of the footwear market.

To compete, industry leaders like **Nike**, **Wolverine**, **Red Wing** and the **Thursday Boot Company** are embracing high-tech automation, analytics to identify and understand customer demand and buying behavior, machine learning to automate manual processes, and digital solutions to maximize customer engagement in stores and online.

One boot company, however, has found success by doing the opposite. In fact, the company many boot and shoe experts consider to be the best in the world has a factory that can only manufacture 30 pairs of boots per day. All are made to order. The company does not keep any shoes or boots in stock. Boots require three weeks to be manufactured and the waiting time for a customer to receive his/her shipment averages three months.

Welcome to the world of The Courteney Boot Company.

The Courteney Boot Company, named after the famed explorer, hunter and conservationist, Frederick Courteney Selous, is located in Bulawayo, Zimbabwe.

Essentials For An African Safari

G&A Staff; Photo by Michael Anschuetz - September 10, 2018

Remembering the safari of a lifetime should go beyond taking pictures and hunting game. In preparation, G&A believes that you should take gear that will enable a safe and successful adventure while embracing Africa's romance. May we suggest starting at **African Sporting Creations** for unique, hand-made products that embody the ruggedness of Africa? Among the many items the company offers, there are four items we feel no hunter shouldn't leave home without: shooting sticks, a good sling, an Arno Bernard knife and Courteney boots.

Courteney boots come in various styles and are made from Nile crocodile, Cape buffalo, hippo, or ostrich leather. The most popular boot is the Selous, named after legendary explorer, conservationist, hunter and soldier Frederick Courteney Selous. These boots are constructed entirely from buffalo and impala, and hand stitched in Zimbabwe. The sole is made of a rubber "tyre" tread, and is highly regarded for producing little-to-no noise in the bush.

One item **African Sporting Creations** is best known for are their shooting sticks. Made in-house of hickory, carbon fiber, or select, limited-edition African woods, the sticks feature leather-wrapped tops hand-sewn from buffalo or zebra leather. The leather improves grip while protecting the rifle's forend when it's time to shoot. Anodized aluminum connectors assemble quickly and the sticks can be stored for transport in a provided canvas carry case.

No safari rifle is complete without a sling and no pair of binoculars should be either. The company offers a canvas and leather bino sling from Els & Co. The strap assembly is comfortable with three traditional brass studs that push into eyelets for adjusting to improve weight distribution.

Knives are a collector's favorite and **African Sporting Creations** is the U.S. master distributor for Arno Bernard knives featuring handles made of buffalo horn and warthog tusk. They also make great gifts to leave behind with your professional hunter or trackers who share your experience.

Most of the products you'll find at **africansc.com** are available nowhere else, just like your memories.

FLY'S EYE® BIPOD

FLY'S EYE® BIPOD

This new model is engineered to deliver unmatched support and pin-point accuracy by offering twice as many points of contact. They offer best-in-class performance due to the intuitive design, rugged construction, ability to change the point of impact without repositioning, compactness when taken apart, light weight and quietness-all backed by the only unconditional lifetime warranty in the business. They are hand-crafted, in our Ohio workshop and are the only product of its type Made in the USA.

No expense was spared to build the best product possible.

- The pivot head utilizes an investment grade aluminum casting sleeved with an indestructible polymer that fully encases the stainless steel pivot ball. The rear support arm opens up to create a 20" span between the two points of contact. This length is ideal for double rifles, single shots and bolt actions. The para cord that connects the two sections is just one of several fail-safes incorporated into this model.
- The optional one-piece suede leather bridge top slides over the front wooden posts and allows you to shift your forend to move the point of impact approximately 25' at 50 yards to follow moving game without repositioning the sticks.
- If you do not have the extra few seconds to deploy the rear support arm or are taking a close shot and do not need it, you can use them as a traditional bipod.
- The rear support arm "V" is designed to go behind the pistol grip of the rifle. Do not put it directly behind the trigger guard as they are not designed to be used from that position.
- When in use, the spread between the bottom legs on the ground is approximately 4'. This spread allows the rear support arm "V" to spread out far enough to securely hold the rifle stock behind the pistol grip.
- Do not crouch behind the sticks as that will put your eye too close to the scope. They are made long enough so you can stand relatively upright to avoid "scope eye."

ADVANTAGES VERSUS OTHER MODELS

- Intuitive design that is easy to adjust-no protruding buttons under tension that all have to be depressed at the same time or sleeve you have to carry in the field to facilitate the above.
- Heavy-duty construction makes them extremely rigid.
- Optional one-piece suede leather bridge top allows you to adjust point of impact without repositioning.
- Lighter weight at approximately 3 pounds versus up to twice as much for competitive models.
- Quieter as no hollow aluminum tubes to conduct sound.
- More compact when taken apart as even on XL model the longest section is only 38" long.
- Nothing permanently affixed to your rifle that makes it difficult to sling or carry.
- Covered by the only unconditional lifetime warranty in the industry with local spare parts.

Please go to our site for additional product details, instructions on how to set them up and how to change your point of impact without repositioning them when you select the optional one-piece suede leather bridge tops.

SIZES - M, L AND XL

- Mediums fit those 5'5" - 5'8" and are 68" long when assembled and the longest section is 36" when taken apart for transportation. Call us if you need a shorter size.
- Larges fit those 5'9" - 6" and are 70" long when assembled and the longest section is 36" when taken apart for transportation.
- XL fit those between 6'1" - 6'4" and are 72" long when assembled and the longest section is 38" when taken apart for transportation. Call us if you need a longer size.

PRICES

- *Base model with oak shafts, non-anodized silver pivot head, traditional circular leather tops and no case. - \$369*
- *Fully loaded model with more rigid hickory shafts, black anodized pivot head, one-piece suede leather bridge top and heavy-duty canvas carrying case-our best value and save \$50. - \$419*
- *Engrave name for \$49*

AFRICAN SHOOTING STICKS

SHOOTING STICKS: FREQUENTLY ASKED QUESTIONS

■ How quickly do they ship?

We ship stock Shooting Stick orders the next business day. If you want the connector engraved with a name or initials, it will add 7 business days to the delivery time.

■ What size should I order?

We provide size information based on your height. If you are between sizes or plan to take steep uphill shots, (need them longer to avoid scope eye) we recommend the next larger size. You can always work with a set that is a little too long. If they are too short, in addition to the risk of "scope eye" the "V" at the top that supports the fore end will be too close together. Since it will not be wider than your fore end, the far leg has a tendency to kick out during recoil.

■ What are the most rigid models you offer?

All of the models offered are very rigid. Keep in mind that you do not have to press your rifle down into them to improve accuracy. They are simply a rest for your rifle and another point of contact. If you exert a lot of downward pressure, your muscles will fatigue and your groups will actually get larger.

■ How long are they when taken apart?

All of our models unscrew and can fit in a full-length rifle case. Larges range from 36-38" and XL range from 38-40" long. If you are traveling with a take-down case or want to put them in a duffel bag, then our large or XL SuperCompacts will fit in either with an ID length of at least 28.25."

■ How much do they weigh?

Domestic wood, large-sized sticks weigh approximately 2.5 pounds. Exotic wood sticks weigh a half-pound more due to their greater density, but this is still less than most premium Aluminum tripods. SuperCompact Hickory domestics weigh approximately 3 pounds (Featherweights weigh ½ pound less) due to the extra set of connectors which increase their versatility and allow them to unscrew to a shorter length.

■ Do you repair them?

Yes, but we have only done this less than a dozen times in 15 years. If you need a repair, simply send them back with a note explaining what you need done. If you need parts you have lost or worn out, simply order them online.

SILVER AFRICAN SHOOTING STICKS

These are just as functional as the Platinum exotic wood ones, but without all the bells and whistles. Shafts are Hickory, a tough, rigid wood used for axe handles, and these are combined with anodized take-down connectors. They include one set of hand-sewn leather tops and a canvas carrying case. These are the same version Dirk de Bod, the SCI and DSC PH of the Year, has been using for the past 10 years.

Standards: for 73" and shorter hunters - \$239

XL: for hunters 74"+ - \$265

SUPERCOMPACTS & CARBON FIBER STICKS

SUPERCOMPACTS are our most versatile shooting sticks. Use the top section alone to shoot from the prone position. Connect the top section to the bottom ones, which feature quiet wood points, to shoot from the kneeling position or to make a 48" walking staff for navigating rough terrain. Use all three sections to shoot from the standing position.

To make sure you can plant them in the ground, pointed tips are always facing down whether you use one, two, or all three sections. The shorter wood sections make these sticks even more rigid than our other models. They are also ideal for those who like to travel with their firearms incognito in a shorter take-down case (Blaser®, double rifles) and need a more compact set of shooting sticks. Instead of one set of anodized take-down connectors, these have two.

Featherweights-Weigh approximately 2.5 lbs. and use light-weight but very rigid exotic African hardwood for the top and bottom sections. Hickory stained, a medium brown color is used for the middle sections. – \$429

Standards-Larges weigh approximately 3.0 lbs. and use hickory stained medium brown for all sections. – \$379

Medium size fits hunters 62"-67," and the longest section measures 26". Large size fits hunters 68"-73," and the longest section measures 26". XL fits hunters above 74," and the longest section measures 28.25" (will fit in a Blaser® case). *Engrave your name on the connector for \$49. Order by 12/15 for holiday delivery.*

CARBON FIBER SHOOTING STICKS

PLATINUM CARBON FIBER SHOOTING STICKS are for anyone who wants the lightest and most rigid sticks available. Carbon fiber is four times stronger than steel yet weighs less than aluminum.

Weigh approximately 2.5 lbs – \$449

Large (68-73") and XL (above 74").

CARBON FIBER SHOOTING STICKS

AFRICAN SHOOTING STICKS

Many years ago we only offered one product: **African Shooting Sticks**. We set out to make the best ones available, and the rest of the business developed from that first, initial product.

Our typical customer purchases up to a half-dozen, less expensive, aluminum shooting sticks before they finally “invest” in a set of ours. While our sticks “cost more,” they will save you money over the long run, and your grandchildren will be proud to use them one day.

On our Shooting Sticks the connector is the strongest component because it is milled from a solid block of aircraft aluminum and has three points of contact for unmatched strength. The adjustment mechanism on competitive Shooting Sticks are usually the weakest component because they rely on plastic or thin, stamped metal pieces. This explains why they typically offer a one-year limited warranty versus our unconditional, lifetime warranty.

In addition to being strong, they are also stealthy. The most unnatural sound in the wild is a metallic one. Our competitors use a hollow aluminum tube with pointed metal bottoms that can make noise which scares off game. Our solid wood shafts and pencil sharpened wood or polymer bottoms are the quietest on the market and help you get in close.

No one ever regretted owning the very best, and our Shooting Sticks have earned a cult-like following among PH's and serious hunters all over the world. Read for yourself why people who hunt for a living (or live to hunt) consider them to be beyond compare!

**UNCONDITIONAL
LIFETIME
WARRANTY**

Absolutely the finest sticks available today are made by African Sporting Creations. Custom built for your height, they are available in various exotic hardwoods; are fitted with buffalo, zebra, or other exotic leather; and can be engraved with your name. While you might think they'd be heavy, they're actually lighter than competing metal and plastic versions, and they are far more durable. I've broken a few sets of modern sticks and have seen many more broken, but even African PHs, who work their shooting sticks incredibly hard year-round, don't wear out or break those made by African Sporting Creations.

Joseph Von Benedikt
August 2016

Shooting sticks have become standard tools for hunting in many places around the globe. A solid pair of sticks provides you with a steady platform from which to deliver an accurate first shot, regardless of the terrain.

African Sporting Creations offers a line of handmade sticks designed to last forever and backed up with an unconditional lifetime warranty.

GRAY'S BEST

Jim has experimented with various woods, improving the design with each generation until now he is close enough to perfect to rate a **GRAY'S BEST**.

Terry Wieland
Expeditions & Guides

I am a firm believer in “African style shooting sticks” and have been using sticks from African Sporting Creations for several seasons. This year African Sporting Creations' screw-in tripod has become a permanent part of my gear. I took them to Pakistan in January where I used them “short” to take a Sind Ibex and “long” to take a Himalayan Ibex at long range in deep snow. Right now I am in Argentina - and you can bet my sticks are here with me!

AFRICAN SHOOTING STICKS

PLATINUM EXOTIC WOOD STICKS

These are the quietest and toughest sticks on the market that have earned the coveted Gray's Best award in 2009. The rigid, exotic wood shafts come with hand-sewn, Cape buffalo tops that will not snag on brush. The anodized take-down connectors are milled out of solid aluminum and have three points of contact for unmatched strength. Use the same sticks the best known PHs in the business rely on season after season and that travel everywhere with Craig Boddington. Heavy-duty canvas carrying case included. Available in the three exotic woods pictured below.

ELS & CO. FINE LEATHER

FULL SIZE FIELD BAR

This is the first truly portable bar as the leather construction and thick 2" leather and canvas carrying strap make it easy to pack up and take with you. This full size field bar measures approximately 14" tall, 14" wide and 9" deep and holds approximately twice as much as the mini-field bar below so it is great for larger gatherings. It has room for two bottles of your favorite liquor, four tins of soda or tonic, cheese, lemons, a knife, corkscrew, etc. It includes four Bohemian crystal glasses, four leather coasters, a wide mouth Stanley® double-walled ice bucket and a solid oak cutting board that nests in a compartment on the very bottom. This stunning piece is sure to turn into your go-to item for adult fun in the great outdoors. Each one takes over 500 stitches to complete and is made by one very talented craftswoman from start to finish. – \$899

MINI FIELD BAR

This is the smaller version of the full size field bar above which is lighter and easier to carry as it stores about half as much. It measures approximately 14" tall, 9" wide and 9" deep. It has room to store one bottle of your favorite liquor, four cans of soda or tonic, lemons, a knife, and a corkscrew. It includes two Bohemian crystal glasses, two leather coasters, a Stanley® wide-mouth double-walled ice bucket and a solid oak cutting board that nests in a compartment on the very bottom. – \$729

STELLENBOSCH WINE & 2 GLASS CARRIER

This closed-top carrier holds a bottle of wine and two stemless glasses that are included. Carrying strap makes traveling with your favorite bottle a breeze – \$379

FREQUENTLY ASKED QUESTIONS

■ What type of steel is used?

Stainless Steel knives use Bohler N690, a high quality stainless steel which is then heat treated and tempered, that hardens the blade to a 59-60 on the Rockwell hardness scale. This level of hardness holds an edge very well, but is not so hard that it is brittle or difficult to sharpen. Damascus knives utilize Damasteel® stainless steel which is the best that money can buy.

■ How quickly do you ship?

We stock over 300 knives to ensure almost all stock knife orders ship the next business day.

■ How are the knives sharpened?

Each one is hollow ground (done on a wheel) by hand, by Franco Bernard.

■ Can I get the lucky recipient's name or initials engraved on the knife?

Yes, you can get any stainless steel knife with a mammoth handle (Inner tusk or molar) engraved for only \$49. Please note this adds about a week to the delivery time, and once a knife is personalized we are unable to accept returns. Due to the striations on the Damascus knives, we do not offer engraving on them.

■ What if I lose my sheath?

We inventory almost all their sheaths and you can simply order a replacement online, or just give us a call. Go online to see what model you have as these are ordered by the knife's model number.

DISCLAIMER

When you purchase a knife or knives from Sporting Wood LLC, dba African Sporting Creations, you represent by your actions as a condition of purchase, that these items can be legally purchased and possessed by you under applicable federal, state, county, city and local laws. It is your responsibility to check these laws before making your purchase. Go to our website www.africansc.com for additional legal and warranty information.

California, New York and New Jersey have passed laws that make it illegal to sell fossil mammoth ivory (tusk and teeth) so we are unable to ship these knives to those three states.

ARNO BERNARD® RINKHALS SLIP JOINT KNIVES

RINKHALS SLIP JOINT FOLDER

A

Mammoth Molar

B

Desert Ironwood

C

Ivory Warthog Tusk

D

Kudu Horn

This Arno Bernard knife takes you back to simpler time, when your first pocket knife opened and closed without any locking mechanism. This updated version of the classic slip joint is 6.5" overall with a 2.8" blade and a full sized 3.7" frame with a 2.8" handle inlay. It features a beautiful design with a versatile, RWL34 stainless steel blade, a nail nick for easy opening and a thumb notch for comfort. Just like your old Buck®, Western® or Case®, the blade features a mirror finish. The hand-sewn, leather slip protects it in your pocket, and the matching bead attached to the leather lanyard makes it easy to access. This lightweight knife sheds ounces by using Titanium for the frame, pocket clip, collar and screws and only weighs 2.3 ounces!

The slip joint mechanism of this knife features an innovative "safety" when it is halfway open which causes the blade to be under very little tension, so it is easy to move your fingers out of the way before tension builds again and assists you in closing (or opening) the knife. Most slip joint knives have continuous tension throughout their entire range, which in some cases causes the blade to close before you can get your fingers out of the way. Since this knife does not have a mechanism that locks it open, always cut with the blade going away from you to prevent injury.

There are four natural choices for handle inlays;

If there was a “Best Knife” classification like there is for British Best Guns, the new Arno Bernard imamba® folding knife would fall into that category. Just like “Best Guns”, what you see is only part of the equation and what you do not see is just as important, and in some cases, even more important than the visible attributes. This new knife has a rounded opening tab on the top of the blade that enables one-handed opening.

Today, 99% of folding knives are taken off machines and assembled. In direct contrast to that, each one of these beautiful knives has all four brother’s fingerprints all over it. The metallic tolerances they achieve are less than 1/100th of a millimeter which is one-tenth the thickness of a piece of paper. Each blade is hand-polished to a mirror finish to highlight any areas that require additional attention. After that, the blades are put in a tumbler with ceramic media to produce a satin gloss finish. The blades are then sharpened by hand. Thus you can see the shiny razor sharp hollow ground edge contrasting against the satin gloss body of the blade.

As with all great products, it all starts with the finest materials. The blade is made from RWL 34 stainless steel, the frame and pocket clip are titanium to keep it light and the pocket clip has no external screws for a clean visual. This large folder measures 7.9” overall with a 4.1” frame, 3.4” deep bellied blade and yet only weighs 4.3 ounces.

The locking mechanism is lapped by hand until the two surfaces engage at 100% for unmatched strength. While the locking mechanism is extremely durable and made to last a lifetime, if it ever wears out, it is easy to replace. The premium, friction-free ceramic ball bearings that make the action as smooth as glass contribute to the durability of this new offering. The pocket clip is a new design that is comfortable to hold in the hand which is something many people on the knife forums put on their “wish list”. If you want to open it up with two hands, there is a deep nail notch that makes that possible.

There are four handle inlay choices and they are shown from top to bottom; *fossilized mammoth molar* (A) – \$749 | *dyed ivory Warthog tusk* – \$599 | *Kudu horn* – \$579 | *carbon fiber snakewood pattern* – \$559

Please check that this item can be legally purchased and possessed by you under applicable federal, state, county, city and local laws. It is your responsibility to check these laws before making your purchase. Go to our website www.africansc.com for additional legal and warranty information.

ARNO BERNARD® Cased Steak Knives

MAMMOTH MOLAR

WARTHOG TUSK

KUDU HORN

CASED SET OF SIX STEAK KNIVES

No expense was spared in the creation of these one-of-a-kind sets. The knives are 8.1" overall with sleek, contoured 4.05" handles that showcase the stunning beauty of polished Mammoth Molar, hand-buffed ivory Warthog tusk or Kudu horn. Five stainless steel pins on each side keep the handles securely fastened to the full length tang. The N690 Bohler stainless steel blade is 4.05" long and Franco Bernard puts a razor sharp, hollow ground edge on every one.

The custom crafted, African mahogany presentation case measures approximately 11.3" wide x 4" deep x 2.3" tall and features recessed brass hinges, a magnetic closure and contrasting exotic wood highlights on all four corners. A center divider keeps the knives securely separated, with three knives to a side. **Hand wash in warm water and hand dry – do not put in a dishwasher.**

THE COURTENAY® BOOT COMPANY: FREQUENTLY ASKED QUESTIONS

■ How quickly do they ship?

Almost all stock Courtenay® orders ship the next business day. We stock more than 20 styles and over 400 pairs in Ohio. Even if we do not have the exact model you want, we can send you something very similar, if you need them quickly.

■ Do you accept custom orders?

Yes, please see our Build Your Own Exotic Boot section for details. If you want a boot built to your particular specifications, you can expect delivery in approximately 120-150 days. One of our most popular custom orders is for the higher Patrol in black Cape buffalo to meet military, pilot and law enforcement dress code requirements. Please note we are unable to accept returns on boots built to your particular specifications.

■ What size should I order?

If you are a current Courtenay® owner, order the UK size stamped in the top right and left hand corner of the logo patch located above the heel. If this is your first pair, simply provide your US size and we will send you the equivalent UK size. All the styles we offer are available in half sizes.

■ How are the men's styles cut?

The boots run wide so if you have a wide foot (EE) they will fit you right out of the box. If you have a regular width foot (D width), then order one of the several styles we offer.

■ Do they have a lot of arch support?

They are cut relatively flat. If you have a pronounced arch we recommend you order a set of our SOLE insoles which quickly mold to your feet. The medium red insoles typically take up about a half size so if you are ordering those we suggest ordering your boots a half-size larger. If you are "between" sizes, the thin gray insoles usually take up any extra space.

■ What socks do you recommend?

We recommend the thick Rohner Trekking socks from Switzerland. They are heavily cushioned and the Merino wool wicks moisture away from your feet.

■ Are Courtenay® Boots waterproof?

All of the Courtenay boots are treated to be water repellent but they are not waterproof. The application of the Courtenay conditioner will keep them water repellent. Due to the hot temperatures in Africa, these boots are designed to breathe so that moisture does not accumulate and cause blisters. To be truly waterproof, you need some type of membrane (for example, GORE-TEX) but boots with that type of material are typically too hot for Africa as they do not allow moisture to evaporate freely.

■ Do you offer ladies styles?

Yes, we offer three different ladies styles but can custom order anything you want with a 120-150 day delivery time.

■ What is your return policy?

Try any boot we stock in your home and if you need a different size or want to return them, just send them back and put a note in the box telling us how you would like to proceed. No return authorization is required.

SOLE INSERTS mold to your feet in a week for an instant fit. Provide additional arch and heel support.

WOMEN'S JEWELRY

GEMSBOK HORN AND PLATED SILVER CHOKER AND EARRINGS

These stunning pieces are crafted using a process that makes the Gemsbok horn pliable enough to be turned into thick, durable strands similar in size and color to elephant hair. The inky darkness of the horn contrasts beautifully with the plated silver decorative accents. The 14" choker necklace clasps easily and securely using a shepherd's hook closure. There are two styles of earrings you can choose from; thicker hoops that inlay three stands of horn in-between silver borders and thinner ones that twist one strand of horn around one strand of silver.

Choker – \$399 | Hoop Earrings – \$99 | Twisted Earrings – \$79

WOMEN'S PLATED SILVER GEMSBOK BRACELETS

These bracelets are crafted using the same process described above. The leather covered steel memory band adds durability and can be opened up (grasp like a wishbone) or made smaller to provide a custom fit. We offer four models; a thick bangle, one that has two silver strands on the top and bottom, one that features two plated silver elephant knots, and the thinnest one is a twisted bangle. All of them coordinate with the pieces above – combine them for an even more stunning look!

Thick Bangle (A) – \$299 | Elegance Bracelet (B) – \$199 | Elephant Knot (C) – \$199 | Twisted Bangle (D) – \$199 |

WARTHOG IVORY HEARTS NECKLACE AND EARRINGS

The inspiration for these stunning pieces are the much larger soapstone hearts crafted by Shona artists in Zimbabwe. These three-dimensional creations are all carved by hand so no two are alike. The ivory pendants average 1" tall and 1" across and they are mounted on a sterling silver "V" post and comes ready to wear on an 18" sterling silver chain.

The ivory earrings are hung from a sterling silver shepherd's hook and are available in S, M (shown to left) and L sizes.

See website for more photos and details.

Ivory Pendant – \$229 | Earrings – \$129

WOMEN'S PLATED SILVER WILDLIFE SETS AND BRACELETS

These are all cast in bronze using the lost wax process and are then plated with 99.9% pure sterling silver. You can choose from a matching set of elephant jewelry (choker, bracelet and earrings on left) or any one of the bangles (right) featuring one of the animals from the Big Five.

Plated Silver Elephant Set – \$299

Individual Big Five animal bracelets – \$79 each

MEN'S & WOMEN'S JEWELRY

MEN'S AND WOMEN'S GOLD GEMSBOK HORN BRACELETS

These bracelets are made the same way as the other Gemsbok Horn jewelry showcased on the previous page but the elephant knots are solid gold; not gold plated, not hollow gold wire, but solid gold! Elephant knot bracelets were supposed to bring the wearer good fortune and who is not in need of a bit of good luck this year!

Men's and women's are sized accordingly – \$1,999

MEN'S AND WOMEN'S REAL ELEPHANT HAIR BRACELETS

Our maker had the last stockpile of elephant hair that could be legally imported into the USA, so these pieces will not be available for long. Both these thick, eighteen strand versions are the largest bracelets we offer and make a dramatic statement.

Women's two-knot, eighteen strand (top) – \$219

Men's three-knot, eighteen strand (bottom) – \$249

MEN'S AND WOMEN'S PLATED GOLD AND SILVER ELEPHANT KNOT BRACELETS

These are made by a retired Botswana PH who hunted these majestic animals. His father was also a PH and his trackers taught him how to tie Elephant knot bracelets at an early age. We offer four styles and each of them is available in both men's and women's sizes. Styles are shown top to bottom.

4 gold strands with 4 gold knots (A) – \$429

4 silver strands with 4 gold knots (B) – \$329

4 silver strands with 4 silver knots (C) – \$279

MEN'S GEMSBOK AND PLATED SILVER BRACELETS

Please see description on the previous page. We offer three men's models; a jumbo-sized version which combines Gemsbok horn strands with a braided giraffe hair middle, a thick bangle and a thinner one that features two sterling silver elephant knots.

CROC OR GATOR BELTS & ACCESSORIES

MEN'S CROC BELTS

Made from the most durable and desirable portion of the hide, the ridged Hornback. Both styles feature detachable buckles and color coordinated hardware. Sizing is easy: Measure your existing belt from the hole you use to the end of the buckle and order the closest even size. **RANGER BELT** (left) is 1 1/4" wide and was designed over 100 years ago by a saddle maker to support the heavy Colt® .45's carried by the Texas Rangers. This load-bearing belt has an extra tongue that overlaps the buckle portion to keep it locked in place. Sizing is easy, measure your existing belt from the hole you use to the end of buckle and order the closest even size. 34"- 44" – \$399. Our **CASUAL BELT** (right) measures 1 3/8" and is a perennial customer favorite. Sizes 32"- 52" Both are available in Mahogany (reddish brown) or black – \$399

ALLIGATOR WEEKENDER BAG

This entire hand-crafted bag, including the handles and padded shoulder strap is made from several sections of hide for a more affordable alternative to one-piece bags that can cost 3X as much. It is larger than an overnight bag and measures 20" wide, 13" tall and 10" deep at the bottom. The heavy-duty zipper/hardware and brass feet will allow it to age gracefully. The leather lined interior has a zippered compartment and two billow pockets to help keep you organized. – \$2,199

CROCODILE HAT BANDS

Adjustable to perfectly fit any hat.
with teeth (shown) – \$99
without teeth – \$69.

GATOR BI-FOLD WALLET

Made from huge gators that offer greater durability than smaller farm raised hides because they are thicker with staggered scales, providing superior resistance to cracking. Measures 4 1/2" x 3 1/2" and the hide is sewn right over the finest calf skin wallet available. – \$299

HORNBACK CROCODILE KEY CHAIN

This is the perfect companion product to either of our mahogany croc belts above. – \$49
