THE BEST JOB IN THE WORLD

Thanks to you, our customers, for one of our best years ever! As always, you play a key role in our success. For example, you critiqued the information found in our web site's new Safari Preparation section to make it even better and helped us organize it in an easy-to-use format. Your reaction to this information has been so positive we put two of the Safari Preparation pages in the middle of this catalog for your future reference.

You also had a hand in selecting the many new products in this catalog. Almost half of the 70 items featured are being shown for the first time and most of them consist of men's and women's jewelry, accessories and knives--items that make perfect gifts for that hard-to-shop-for person you know.

If you would like to see our products up close, please visit us at the Dallas Safari Club (booths 311/312) in January. We are still awaiting word regarding SCI Reno, so check the exhibitor directory to see if we secured a booth. Please contact us in advance if you would like us to bring a particular item to the show.

The products showcased in the pages that follow represent just a small sampling of our total offering. To see more, please visit our web site. Thank you for your continued support, and we hope you enjoy a great holiday season.

Good hunting!

AFRICAN SHOOTING STICKS

PLATINUM GRADE-These handcrafted, take-down shooting sticks come with a lifetime guarantee and are the same ones that received the coveted Gray's Best award in 2009.

This year we've made the best even better by hard anodizing the connectors with a matte black finish and adding hand sewn circular tops that will not snag on brush. These premium sticks combine positive-locking aluminum connectors milled out of a solid block of aircraft aluminum with extremely rigid, kiln dried exotic wood shafts for unmatched strength and performance. You have your choice of eye-catching zebra or buffalo tops for added visual appeal. They are also the quietest sticks on the market due to the noise suppression bumpers on the connectors and sharpened wood bottoms. Use the same sticks the best known PH's in the business rely on season after season and that travel everywhere with Craig Boddington and Mike Rogers. Make them even more special by having the lucky recipient's name or initials engraved on the connectors for an additional \$49 fee. Heavy-duty canvas case included. Specify Medium (under 68"), Large (69-75") and XL (above 76") \$349 with other models starting at \$229

GRAY'S BEST

Mike Rogers after a
successful hunt

"Before I started using your sticks I was lucky to get half a season out of any others before they broke. I hunt 250 days a year and have been using yours for going on six years now and they are still performing brilliantly! Thanks for making such a great product."

- Dirk de Bod-SCI and DSC PH of the Year

"When an African PH whispers, 'sticks', things get exciting fast! When I set up on them I want to know they fit correctly and I have confidence in them as it often comes down to just one shot. While every PH has a set in camp, they are typically cut from springy green saplings and may be too tall or too short. That is why I bring over the same set I practice with before departure. I have found the quality, rigidity and construction of the custom crafted African Sporting Creations sticks to be just about perfect and strongly recommend you get a pair for yourself."

SAFARI PLANNING TIMELINE

9 - 12 Months

- ☐ Go see your personal Dr. for a physical before starting an exercise program
- ☐ Purchase Safari Guide II and read about your destination
- ☐ Make an appointment with a tropical disease doctor to ensure you received proper pre-trip and post-trip care (if-needed)
- ☐ If you need an airline approved gun case, buy one now so you know how much room you will have for your gear.
- ☐ Purchase a hydration pack for use during exercise sessions to familiarize yourself with the product.
- ☐ Highlight the items on the Essential Gear List that you will need to acquire and the time-frame in which you will practice with and break-in those items.
- ☐ Understand all airline and luggage regulations.

4-8 Months

- ☐ If you are purchasing new boots start breaking them in during training walks
- ☐ Practice with your shooting sticks to familiarize yourself with them and to avoid developing a flinch from the bench if you are frequently practicing with a big bore
- ☐ If purchasing a leather culling belt, bring it to the range along with your safari bino sling to break in and to get used to operating a firearm with them
- ☐ Purchase your medical evacuation policy
- ☐ Get shots as early as possible (keeping in mind how long they are good for) to account for any soreness/reactions
- ☐ Check your passport expiration date
- ☐ Complete your Custom Form 4457 for firearms and other high value items
- ☐ Secure all taxidermy tags
- ☐ Call your cell phone provider and see if they can provide international services. If not, consider a satellite phone if your phone does not have a viable alternative.

0-3 Months

- ☐ If you are using DEET, try it before departure to make sure you do not have a reaction
- ☐ Treat your clothes with Permethrin two weeks before departure
- ☐ Decide what gear you will wear/carry on
- ☐ Do a trial pack 30 days before departure to ensure everything fits as expected and the weight of each bag is balanced to avoid "heavy" surcharges
- ☐ Make extra copies of all important documents (Customs 4457, itinerary, plane tickets, medical/shot records, cell phone instructions, hunt contract, trip and medical evacuation policy, etc.) and leave one set at home and take one set with you
- ☐ Put fresh batteries in all your gear and make sure you have all your chargers ready to go
- ☐ Check to make sure you have enough of your regular and safari related prescriptions
- ☐ Select your reading materials/DVD's for the trip over and back
- ☐ Secure cash, travelers checks, and call your credit card company to make sure they do not turn your card off while you are overseas

Raindrop

CORRIE SCHOEMAN CUSTOM FOLDERS-Corrie has been making knives since 1965. His attention to detail, incredible workmanship and the fact that he does 100% of the work and fitting himself gives him the ability to make true works of art. He sets citrines or rubies in the thumb stud and spine and adds beautiful file work to the top of the blade, liners and back-bar. The Resist is crafted out of extra tough stainless steel which very few makers have the skill to work with, and the handle is Mammoth tusk. The Thump and Raindrop feature hand-hammered Ettore Gianferrari carbon Damascus and Mammoth handles. These 7.5" folders are exceptional pieces, and you will be hard-pressed to find a knife made with such tremendous care and skill at twice the price. The handles on the two Dagga Boy models combine polished Cape buffalo horn with creamy warthog ivory. Both are 8" overall with 4" blades. The story behind the Doctari knife is recounted by Dr. Kevin Robertson, best selling author of the One Shot books: "When I underwent the PH Proficiency exam, my group ended up skinning and de-boning five elephants in five days. The knife I used was of my own design and I never developed a blister, which was not the case with the others. The design of this knife incorporates all I have learned field dressing thousands of animals." This knife is a bit longer than the other two at 9" overall with a 5" blade and features a beautiful stained giraffe shin bone handle. **\$499** each

These canes are for display purposes only and are not for use by individuals who have a medical, degenerative or other condition that requires the use of a cane. While very durable, ivory is brittle and can snap off if used in a load bearing application. For this reason, do not lean on any of the ivory canes or use them for support while walking.

BRITISH CAMPAIGN FURNITURE-These beautiful and functional pieces are almost identical to the ones designed for the British military over 100 years ago. Each piece is handmade, one at a time, by skilled South African artisans and features beautiful African mahogany frames, thick saddle leather, solid brass fittings and the same heavy-duty canvas that covers most of the safari vehicle seats in sub-Saharan Africa. They are extremely sturdy and designed to go together quickly and break down in minutes. The chairs and tables come complete with a heavy-duty canvas storage tote. The gun rack stores up to 9 firearms in leather covered spaces that are wide enough to accommodate S x S shotguns. When set up, the gun rack measures 36" wide x 32" tall and 26" deep. When it is folded for transport, it measures 36" wide x 33.5" tall x 5" deep. The wood storage tray measures 21"x 3 ½"x 3 ½" and can accommodate 4 boxes of big bore cartridges or six boxes of shotgun shells. These heirloom-quality creations are attractive enough to be displayed inside and rugged enough for field use. Order yours today and take a little bit of British ingenuity with you wherever you go!

"As I age, I find that I gravitate towards products made by someone who cares about quality and unless abused, they are usually the last ones I have to purchase. I then spend more time enjoying them and less time cussing them."

ANTIQUE AFRICAN SPEARS & SHIELDS

We have one of the largest private antique spear and shield collections in the country. We specialize in Maasai lion spears, intricately crafted Kuba spears and large battle shields from the fierce Nguni tribe woven from natural rattan and fiber.

Many sizes, materials and tribes are represented in our extensive inventory. Most of these unique pieces are 70 to 100 years old and were acquired from European museums or at auction. Many are coated from the soot of hundreds of wood fires and are readily distinguishable from their mass-produced replicas. If you want a matched pair to cross behind a shield, please note H and M, along with N and O give you that option. The items shown are a small sampling of our collection. If you are looking for something in particular or want more details on a spear or shield you see here, call us at (419) 529-5599.
